The Journal of Bone and Joint Surgery

QUINQUENNIAL INDEX

1958–1962

Volumes 40–44

THE JOHN CRERAR LIBRARY
APR 16 1965

FROM THE BRITISH EDITORIAL BOARD, LONDON

PUBLISHED BY E. & S. LIVINGSTONE LTD.
EDINBURGH AND LONDON

BINDING CHARGES
FOR THE QUINQUENNIAL INDEX

If you wish to have this index bound in cases uniform with the complete volume of *The Journal of Bone and Joint Surgery*, we will be glad to arrange this for you. The price for binding complete is 12s. 6d. net, postage 1s. 6d.

If, however, you would like to have the official binding case separately so that your copy could be bound in your own town, we can supply this at 5s. net, postage 6d. extra.

Additional copies of this index are available price 20s. with paper covers, postage 1s. Bound copies price 32s. 6d., postage 1s. 6d.

AUTHOR INDEX

A

Abbott, W. E., *see* Spencer, G. E., jun., *et al.*

Abdalla, M. A., and Nessim, F. Hereditary osteo-onychodysplasia, **44 A,** *1431.

Abe and Shiraishi. Postoperative personality change in children following reconstructive surgery, **42 A,** 547.

Abe, I., *see* Iwauchi, S., Shoji, N., and Abe, I.
see also Ri, K., *et al.*

Abe, Y., *et al.* Thirteen cases of alkaptonuria from one family tree with special reference to osteo-arthrosis alkaptonurica, **42 A,** *817 (*correction,* 1283).

Abel, M. S. Moderately severe whiplash injuries of cervical spine and their roentgenographic diagnosis, **40 A,** 234.
see also Harmon, P. H., and Abel, M. S.
see also Wagner, R. F., and Abel, M. S.

Abercrombie, G. F. Major injuries (*symposium*), **43 B,** 182.

Abramowitz, I. Triphalangeal thumb in a Bantu family, **41 B,** *766.

Abramson, A. S., *see* Taft, L. T., *et al.*

Abreu, L. B. de, and Godoy Moreira, R. Median-nerve compression at wrist, **40 A,** *1426.

Ackerman, L. V. Extra-osseous localized non-neoplastic bone and cartilage formation, **40 A,** *279.
see also Whitesides, T. E., jun., and Ackerman, L. V.

Ackermann, W., and Schwarz, G. S. Non-malignant segmental vertebral sclerosis simulating neoplasm (*exhibit*), **40 A,** 732.

Adam, A., and Spence, A. J. Intertrochanteric osteotomy for osteoarthritis of hip, **40 B,** *219.

Adams, J. C. *Book review*, **40 B,** 843.
Fracture-dislocation of hip (*discussion*), **44 B,** 954.

Adams, J. E., *see* Raney, F. L., jun., and Adams, J. E.

Adams, J. P. Correction of chronic dorsal subluxation of proximal interphalangeal joint by means of criss-cross volar graft, **41 A,** *111.
Wringer injuries of hand (*discussion*), **43 A,** 619.

and Albert, S. Blood volume in lower extremities, **44 A,** *489.

and Fowler, F. D. Observations on wringer injuries, **43 A,** *1179.

et al. Visit of 1959 North American Traveling Fellows to Great Britain, **41 A,** 1529.
see also Feffer, H. L., and Adams, J. P.
see also Mitchell, W. J., and Adams, J. P.

Adams, R. D. *Book review*, **44 A,** 1715.

Adamson, J. E., Boyes, J. H., and Wilson, J. N. History of flexor-tendon grafting, **43 A,** *709; *correspondence*, **44 A,** 422.

Adas, E., *see* Marsh, H. O., Adas, E., and Laroia, K.

Addison, J. Acromio-clavicular dislocation (*discussion*), **44 B,** 227.
Osteoarthritis of hips with scissor deformity (*discussion*), **40 B,** 827.

Adler, F. Laboratory aids in diagnosis of fat embolism, **42 A,** 1277.

Lai, S.-P., and Peltier, L. F. Fat embolism: correlation of serum lipase level with incidence of lipuria, **42 A,** 538.

Adler, J. B., and Shaftan, G. W. Fractures of capitate, **44 A,** *1537.

Adler, S., Fay, G., and MacAusland, W. R., jun. Olecranon fractures, **41 A,** 1540.

Adorjan, S. Severe slipping of upper femoral epiphysis, **43 B,** 405.

Aegerter, E. E. Giant-cell tumor—menace or myth, **43 A,** 912.

Ahern, R. T. Tuberculosis of femoral neck and greater trochanter, **40 B,** *406.

Aird, I. *Book review*, **40 B,** 370.

Aitken, A. P. Dislocations of tarsometatarsal joint, **44 A,** 1706.
Epiphyseal fractures (*discussion*), **41 A,** 1064.

and Nalebuff, E. A. Volar transnavicular perilunar dislocation of carpus, **42 A,** *1051.

Aitken, G. T. Amputation as treatment for certain lower-extremity congenital abnormalities, **41 A,** *1267.

Akabayashi, Sudo and Shibata. Results in treatment of congenital dislocation of hips and relationship to nutritional status, **42 A,** 558.

Akahoshi, Y., *et al.* Histochemical studies of tuberculous lesions of bones and joints, **40 A,** 219.
see also Brower, T. D., Akahoshi, Y., and Orlic, P.
see also Ferguson, A. B., jun., and Akahoshi, Y.
see also Ferguson, A. B., jun., *et al.*

Akamatsu, H., and Tsuge, K. Secondary repair of flexor-tendon injuries, **43 A,** 152.
see also Tsuge, K., and Akamatsu, H.

Akeson, W. H. Experimental study of joint stiffness, **43 A,** 604, *1022.

Eichelberger, L., and Roma, M. Biochemical studies of articular cartilage: 2—Values following denervation of an extremity, **40 A,** *153.
see also Eichelberger, L., Akeson, W. H., and Roma, M.

Alban, H., *see* Alban, S. L., Alban, H., and Cooperman, B.

Alban, S. L., Alban, H., and Cooperman, B. Post-anesthesia suggestion in orthopedic surgery, **42 A,** 536.

Albert, S., *see* Adams, J. P., and Albert, S.

Albert, S. M., Wohl, M. A., and Rechtman, A. M. Darrach operation (*exhibit*), **44 A,** 1481.

Wohl, M. A., and Rechtman, A. M. Problem of the distal radio-ulnar joint, **44 A,** 1263.

Albrecht, J. M., *see* Milch, R. A., *et al.*

Alcock, N. S. The neurological contribution to cerebral palsy, **41 B,** 620.

Aleu, F., *see* Ponseti, I. V., and Aleu, F.

Alexander, E., jun., *see* Forsyth, H. F., *et al.*

Alexander, S. Spinal injuries (*discussion*), **41 B,** 214.

Alffram, P.-A., and Bauer, G. C. H. Epidemiology of fractures of forearm, **44 A,** *105.

Alfred, K. S., *see* Froimson, A., and Alfred, K. S.

Alger, J. R., and Entin, M. A. Free autogenous whole joint grafts, **42 A,** 539.
see also Entin, M. A., Alger, J. R., and Baird, R. M.

Allaben, R. D., Posch, J. L., and Larsen, R. D. Experimental evaluation of efficacy of chymotrypsin in reduction of edema in crushed extremities, **44 A,** *41.

Allan, J. H. Treatment of comminuted fractures of calcaneus by primary triple arthrodesis (*discussion*), **41 A,** 1436.

Allbrook, D., and Kirkaldy-Willis, W. H. Restoration of articular surfaces after joint excision, **40 B,** *742.

* Indicates full article.

Allcock, E. A. Torulosis, **43 B,** *71.
Alldred, A. Congenital absence of radius (*discussion*), **43 B,** 189.
Localised ischaemia of calf, **42 B,** 659.
Subscapularis transplant for recurrent dislocation of shoulder, **40 B,** 354.
Alldredge, R. H. Interscapulothoracic amputation, **44 A,** 204.

induction of members, **40 A,** 500.
Instructional Course Lectures, **44 A,** *745, *975, *1197, *1439, *1661.
presidential addresses, 1958, **40 A,** *707; 1959, **41 A,** *546; 1960, **42 A,** *344; 1961, **43 A,** *141; 1962, **44 A,** *390.
relationship to the *Journal*, influence of William A. Rogers, **40 A,** 1215.
American Board for Certification of the Prosthetic and Orthopedic Appliance Industry, Inc., 40 A, 733; **41 A,** 1345.
American Board of Orthopaedic Surgery and resident training programmes, **44 A,** 392.
American College of Surgeons, Fora on Fundamental Problems in Orthopaedic Surgery, 1957, **40 A,** 228; 1958, **41 A,** 371; 1959, **42 A,** 538; 1960, **43 A,** 147.
American Medical Association
Committee on Injuries in Sports, **41 A,** 1543.
Section on Orthopaedic Surgery, annual meetings, 1957, **40 A,** 232; 1958, **41 A,** 365; 1959, **41 A,** 1539; 1960, **42 A,** 1265.
American Orthopaedic Association
annual meetings, 1959, **41 A,** 1535; 1960, **42 A,** 1441; 1961, **43 A,** 1255; 1962, **44 A,** 1703.
election of officers and members, **40 A,** 244, 1212; **41 A,** 1164; **44 A,** 1270.
interim meeting with Japanese Orthopaedic Association, 1962 (*programme*), **44 A,** 425.
presidential addresses, 1959, **41 A,** *1157; 1961, **43 A,** *582; 1962, **44 A,** *1699.
see also Travelling Fellows in Orthopaedic Surgery.
American Society for Surgery of the Hand
annual meetings, 1958, **40 A,** 947; 1959, **41 A,** 774; 1960, **42 A,** 907; 1961, **43 A,** 611; 1962, **44 A,** 1031.
officers, 1962, **44 A,** 428.
Amino-acids
essential, effect on fracture healing, **40 A,** 228.
in bone and fracture callus, **42 A,** 541.
in denervated muscles, chromatographic study, **42 A,** *1008.
Aminonitriles
deformities produced by, **42 A,** 1272.
— suppression by thyroxine etc., **40 B,** 159.
early skeletal and vascular changes produced by, **41 B,** *600.
Aminonitriles (*continued*):
effect on fracture healing, **40 A,** *1093; **44 A,** 1022.
enzyme alterations in epiphysial cartilage of rabbit after aminoacetonitrile administration, **43 A,** *669.
lathyrism in rabbits fed beta-aminopropionitrile, **44 A,** *717.
skeletal changes produced by, in chicks, **41 B,** *581.
Aminonucleosides, bone destruction due to administration of, **43 A,** *865.
Amphibians, regeneration of limbs in, bioelectric factors in, **43 A,** *643.
Amputation
below-knee
— for senile gangrene, **40 B,** 601.
— recurrent dislocation of patella after, **43 B,** 509.
— short, **41 A,** 569.
exarticulation for malignant tumours, **42 A,** *1041; **43 A,** *845, 916.
for congenital deformities of lower limbs, **41 A,** *1267; **42 A,** 1270.
— absence of fibula, **43 A,** *625.
for vascular disease, **41 B,** 880.
— clinicopathological study, **40 A,** *72.
forequarter, **40 A,** 739; **44 A,** 204.
hemi-, of hand, **41 B,** 626.
hindquarter, **41 A,** 568.
— traumatic, **44 B,** *384.
in haemophiliac, **44 A,** 1250.
in treatment of trauma, **44 A,** 764.
— conservatism in, **42 A,** 1106.
knee disarticulation (*follow-up note*), **44 A,** 1697.
— technique and prosthesis, **43 A,** 312.
mid-metatarsal, for diabetic gangrene, **40 B,** 601.
Nathan Smith on, **43 A,** *1247.
of all toes for clawing, **42 B,** *90; (*correspondence*), 412.
sites of election for, **41 B,** 634.
stumps
— fractures in, **42 A,** *499.
— healing of, in rabbit, **44 B,** *431.
— in leprosy patients, **40 A,** 225.
— neuromata of, digital, treatment
— — injections, **44 B,** 227.
— — operative, **40 B,** 830.
— pain in, **44 B,** 236.
— — treatment, biological method, **43 A,** 297.
— perspiration of, **42 A,** 556.
— preparation of, **41 B,** 887.
Syme's
— for crushed foot, **40 B,** 347.
— for leg length discrepancy associated with congenital absence of fibula, **42 A,** *1.
— history of, **43 B,** 611.
upper arm, stump lengthening by bone-grafting, **41 A,** *409.
with arthrodesis of shoulder, for brachial plexus injuries, **43 B,** *493.
see also Artificial limbs; Cineplasty.
Amputees
juvenile, questionnaire survey, **41 A,** *1437.
rehabilitation of, **41 A,** 1347.
Amyloidosis secondary to leprosy, **42 A,** 675, 677.
Amyoplasia congenita, *see* Arthrogryposis multiplex congenita.
Anaemia
Cooley's, bone changes in, **41 B,** 711; **44 A,** 1402.
sickle-cell
— bone changes in, **40 A,** 1441; **41 B,** *711; **43 A,** 595.
— salmonella osteomyelitis complicating, **42 A,** 702.
Anaesthesia
hypnosis during awakening phase of, **42 A,** 536.
in minor injuries, **43 B,** 183.
in traumatic surgery, **44 A,** 755.

* Indicates full article or appreciable part.

Anaesthesia (*continued*):
lidocaine block for pain in upper limb, **40 A,** 947.
local, in reduction of fractures and dislocations, **40 A,** 232.
upper arm block in children, **41 A,** 368.
Androgens, *see* Testosterone.
Andry, Nicholas
and his *Orthopaedia* (*book review*), **44 B,** 249.
Essay Award, **42 A,** 365.
Aneurysmal bone cysts, 41 B, 632, 883; **42 A,** 1442; **44 A,** *25; **44 B,** *93, 229, 445.
differential diagnosis from osteoclastoma, **42 A,** 480.
of humerus, **42 B,** 410.
of spine in child, **40 A,** 974.
relation to giant-cell fibroma of bone, **40 A,** 731.
Aneurysms
arterio-venous, *see* Fistulae, arterio-venous.
popliteal, caused by osteochondroma, **41 A,** *1526.
Angioblastoma, malignant, of bone, *see* Adamantinoma of long bones.
Angiography
cerebral, by brachial route in diagnosis of cerebral palsy, **43 A,** 304.
see also Arteriography; Microangiography; Venography.
Angioma, *see* Haemangiomata.
Angiomatosis, *see* Haemangiomata; *see also* Lymphangiectasis.
Angiosarcoma, *see* Lymphangiosarcoma.
Ankle
arthrodesis
— by compression, **41 B,** *524.
— central graft operation, for tuberculosis; **41 A,** *1029.
— distraction-compression bone-graft, **44 A,** 1265.
— Gallie's, **40 B,** 346; **41 B,** 869; **42 A,** *1308.
— in children, **42 A,** 545.
— in poliomyelitis, **41 A,** 563.
— Newton Mead's, **44 A,** 794.
— pantalar
— — by compression, **42 A,** 1277.
— — in poliomyelitis, **41 B,** *337.
— — one-stage, **43 B,** 610.
— with transfixion screw, **40 A,** 979.
ball and socket, **40 B,** *240.
bone block, posterior, with triple arthrodesis, for drop foot, **40 A,** 730.
Charcot's arthropathy, in diabetes mellitus, **40 A,** *1043.
fracture-dislocation, **44 A,** 801.
— with displacement of tibialis posterior tendon, **41 A,** *749.
fractures, **43 B,** 186.
in relation to arthrodesis of foot in poliomyelitis, **41 B,** *337.
injuries, **43 A,** 1071; **44 A,** 583.
— mechanical derangements in area of lateral malleolus after, **42 A,** 887.
— radiography of, **42 A,** 543.
— — under stress inversion, **42 B,** *793.
instability, lateral
— accompanying oblique fractures of fibula, **43 A,** *969.
— due to avulsion fractures of fibula, **42 A,** 526.
laxity, anterior, in etiology of recurrent paralytic drop foot, **44 B,** *377.
ligaments
— calcaneo-fibular, injuries of, peroneus brevis tenodesis for, **40 B,** 357.
— deltoid, injuries of, **42 A,** *1287.
— injuries of, treatment, operative, **42 A,** 1269.
— lateral
— — injuries of, **41 B,** 432; **43 A,** 462.
— — — diagnosis, radiography under stress inversion, **42 A,** *311 (*corrections,* 727), *1184.
Ankle
ligaments
— lateral
— — injuries of (*continued*):
— — — treatment, operative, **41 B,** 431; **43 A,** *229.
— — insufficiency of, peroneus brevis tenodesis for, **44 A,** 810.
— sprains of
— — recurrent, with diastasis, **40 B,** *270.
— — sinus tarsi syndrome following, **40 A,** 720.
muscles acting on, function during weight-bearing, electromyographic analysis, **41 A,** *1469.
osteochondritis dissecans, **41 A,** *988 (*correction,* 1363).
pain in children associated with extra centre of ossification for medial malleolus, **43 B,** *107.
support in athletes, effectiveness of taping, 44 **A,** *1183.
surgery, skin incisions in, **40 A,** 220.
tuberculosis, arthrodesis for, central graft operation, **41 A,** *1029.
see also Fibula; Tibia; Tarsus.
Ankylosing spondylitis
compression fractures in, **42 A,** 132.
destructive lesions of spine in, **43 B,** 863.
etiology, **44 A,** 587.
knee changes in, **42 B,** *142.
radiology, comparison with Reiter's disease and rheumatoid arthritis, **41 B,** *137.
sacro-iliac changes in, **40 A,** 966.
treatment
— correction of cervical deformity by halo device and arthrodesis, **43 A,** *547.
— osteotomy of spine, **40 A,** 1433; **41 A,** *291; **44 A,** *1199, *1207.
— — cervical, **40 A,** *833; (*correspondence*), **41 B,** 640.
— — lumbar, **41 B,** *270.
Anoxia, post-traumatic, **44 B,** *778.
Anterior interosseous nerve, Kiloh-Nevin syndrome, **44 B,** 962.
Anterior tibial muscle and tendon, *see* Tibialis anterior.
Anterior tibial syndrome, *see* Ischaemic contracture of leg.
Antibiotics
atypical appearances in osteomyelitis due to, **42 B,** 407.
combined with gamma globulin for osteomyelitis of spine, **42 A,** *414.
intra-articular, in treatment of pyogenic arthritis, experimental studies, **41 A,** 371; **43 A,** 148.
prophylactic, after orthopaedic operations, **42 A,** 538; **44 A,** *1548.
regional perfusion of, for chronic osteomyelitis, **42 A,** 539.
see also Neomycin; Penicillin; Puromycin; Streptomycin; Tetracyclines.
Antigens A and B in human bone tissue, **41 B,** *151.
Antihistamine, effect on fat embolism, **41 A,** 553.
Antler growth in deer, changes in blood chemistry during, **44 A,** *482, 1026.
Aorto-iliac occlusive disease, 41 A, 184; **43 B,** 404; **44 A,** 794.
low back pain in, **41 B,** *244.
Apert's syndrome, 40 B, 596.
Apophysial cartilage, effect of muscle action on, **40 B,** 158.
Apparatus, *see* Disabled, aids for; Orthopaedic appliances; Surgical implants; Surgical instruments and accessories.
Appendix, abscess of, chronic, simulating tuberculosis of hip, **40 B,** 350.

* Indicates full article or appreciable part.

Arachnodactyly
abnormal mucopolysaccharide metabolism in, **42 A,** 1272.
associated abnormalities of anterior chamber angle of eye, **42 A,** 1448.
Arachnoiditis
complicating discography, **43 B,** 615.
complicating myelography, **42 A,** 204, 288.
Arm, *see* Limbs, upper; *see also* Forearm.
Arterial spasm
caused by tourniquets, **44 B,** 941.
see also Ischaemic contracture.
Arteries
axillary, rupture of
— complicating anterior dislocation of shoulder, **44 B,** *116.
— without dislocation or fracture, **44 B,** *114.
brachial, rupture of, complicating compound posterior dislocation of elbow, **44 B,** *119.
external iliac, injury to, during hip surgery, **43 B,** 402.
femoral, injury of, complicating fracture of femoral shaft, **44 B,** 439.
foveolar, origin of, **41 A,** *261.
grafting, **41 A,** 761.
— in occlusive vascular disease, **40 A,** *983.
injuries, **41 B,** 432.
— accompanying brachial plexus injuries, **42 B,** 404.
— complicating dislocation of knee, **41 B,** 878.
— complicating fractures, **42 A,** 185.
— due to blunt trauma, **43 A,** *193.
— in orthopaedic patients, **40 A,** *1271.
— in upper limb, reconstructive surgery of, **41 A,** *665, 777.
median, thrombosis of, carpal tunnel syndrome due to, **40 A,** *1426.
popliteal
— aneurysm of, caused by osteochondroma, **41 A,** *1526.
— injury of, complicating dislocation of knee, **41 B,** 878.
repair with autogenous connective tissue tubes, **44 B,** 245.
subclavian, compression of, by fractured clavicle, **42 A,** *798.
thrombosis, acute, in arm, **40 B,** 828.
ulnar, thrombofibrosis of, in palm, **41 A,** *702.
see also Vascular disorders; Vascular injuries.
Arteriography
in occlusive vascular disease, **40 A,** 990.
of bone tumours, **43 B,** 186.
see also Angiography; Microangiography.
Arteriosclerosis, *see* Vascular disorders, occlusive.
Arteriovenous anomalies about knee, **40 B,** 361.
Arteriovenous fistulae
bone growth stimulation by production of, **40 B,** 820.
congenital, **44 A,** *815.
— involving femur, **41 B,** *358.
effect on vascular pattern of femora of immature dogs, **41 A,** *1101.
popliteal, complicating meniscectomy, **44 B,** 744.
Arteritis, giant-cell, **44 A,** 1040.
Arthritis
alkaptonuric, **41 A,** *1169; **42 A,** *817; **43 A,** 461.
— pathogenesis, **43 A,** 148, 909.
chondrolysis in, **41 B,** *384; **44 A,** 1028.
deformans, *see* Osteoarthritis.
diagnosis, arthroscopy in, **42 A,** 553.
due to *Bacterium mycoides,* **42 B,** 858.
haemophilic, **43 B,** 172.
— treatment, **41 A,** 1540.
— — operative, **42 A,** 187.
hand in, **40 A,** 736.
Menkin's factor in, **42 A,** 552.
neuropathic, *see* Charcot's arthropathy.
Arthritis (*continued*):
of hip, destruction of femoral head complicating, **43 B,** 860.
pyogenic
— cartilage lysis in, **44 A,** 1028.
— chronic, caused by foreign bodies, **42 B,** 405.
— complicating steroid therapy, **41 B,** 635; **43 B,** 402.
— in infancy, **42 B,** *706.
— — and childhood, **40 A,** 978.
— of hip, **41 B,** 872; **44 B,** 851.
— — complicating decubitus ulcers, **42 A,** *1165.
— — complicating surgery, **41 A,** 365.
— — in children, dislocation following, shelf operation for, **42 A,** *1223.
— — in infancy, **42 A,** *23; **42 B,** *11, 403; **43 A,** 295; **43 B,** 191, 201.
— — — reconstructive operation for, **40 B,** 596.
— — — replacement arthroplasty for, **41 A,** 558; **44 A,** 1020.
— prophylaxis and treatment, serum and synovial fluid levels of antibiotics after oral administration, **43 A,** 602, 606.
— treatment, antibiotics, intra-articular, experimental studies, **41 A,** 371; **43 A,** 148.
rheumatoid, **43 B,** 861.
— diagnostic criteria for, **41 A,** 781.
— etiology, **42 A,** 552.
— fingers in, arthroplasty of, **44 A,** 1037.
— — with hinged prosthesis, **42 A,** 907; **43 A,** *753.
— hand in, **44 A,** 1401.
— — radiological changes, **40 B,** 345.
— — rehabilitation of, **40 A,** 1432.
— — surgery of, **40 A,** 1431; **40 B,** 835; **42 A,** 188, 904, 909; **43 A,** 594; **44 A,** 203, 1019; (*editorial*), **44 B,** 759; (*symposium*), **44 B,** 237.
— — tendon rupture, **40 A,** 1431; **41 B,** 629; **44 B,** 228, *764.
— — tendon surgery, **44 B,** 742.
— hip in
— — arthroplasty of, **41 A,** *705.
— — synovial cysts of, **41 A,** *721.
— knee in
— — cysts of calf associated with, **41 A,** 730; **43 B,** *87.
— — flexion contracture, **42 B,** *730.
— — — treatment, **43 B,** 203.
— — — — osteotomy of femur, **41 B,** 633.
— — — — osteotomy of tibia, **43 A,** 300.
— — synovectomy of, **43 B,** 863.
— pathology, **42 A,** 552.
— polymyositis in, **44 B,** 237.
— radiology, comparison with Reiter's disease and ankylosing spondylitis, **41 B,** *137.
— relation to de Quervain's disease, **40 A,** 1063.
— spine in, cervical, subluxation of, **43 B,** 600.
— stress fractures of tibia and fibula in, **43 B,** 858.
— synovial fluid in
— — phosphatase levels, **43 A,** 607.
— — sulphate values, **40 A,** *457.
— tenosynovitis in, **40 A,** *1230.
— thumb in, surgery of, **44 A,** *1376.
— toe deformities in, treatment
— — amputation of all toes, **42 B,** *90; (*correspondence*), **42 B,** 412.
— — arthrodesis of first metatarso-phalangeal joint, **40 B,** 826.
— — excision of metatarsal heads, **41 B,** 634; **43 B,** 861.
— — — and partial phalangectomy, **42 A,** 523; **43 A,** 911.
— — forefoot reconstruction, **41 B,** *507; (*correspondence*), **42 B,** 412.

Arthritis
rheumatoid (*continued*):
— treatment
— — joint clearance, **41 B,** 857.
— — local injections of dornovac and nitrogen mustard, **42 A,** 357.
— — steroids, **42 A,** 552.
— — — complications of, **40 A,** 1433.
synovial fluid in
— biochemical study, **42 A,** 552.
— practical importance of analysis of, **41 A,** *167; **44 A,** 1489.
— sulphate values, **40 A,** *457.
treatment, **42 A,** 1272.
— steroids, intra-articular, Charcot's arthropathy complicating (*editorial*), **43 B,** 220.
— sympathectomy, lumbar, **42 A,** 887.
tuberculous, *see* Tuberculosis of bone and joint.
Arthrochalasis multiplex congenita, *see* Joints, laxity of, congenital.
Arthrodesis
by compression, **41 A,** 570; **41 B,** *524.
central graft operation, for tuberculosis, **41 A,** *1029.
muscle pedicle bone graft in, **40 A,** 973.
polyurethane polymer in, **44 A,** 1618, *1621.
see also under names of joints.
Arthrodysplasia, hereditary, *see* Osteo-onycho-dysplasia.
Arthrography
of hip
— in children, hazards of, **44 B,** 443.
— in congenital dislocation, **43 A,** 285; **43 B,** 194, 197.
of knee, **44 A,** 1020.
— in meniscus injuries, **41 A,** *1213.
Arthrogryposis multiplex congenita, 40 A, *1285; **43 B,** 855.
associated with congenital vertical talus, **40 B,** 35.
hip dislocation in, **41 B,** 872.
Arthroplasty, 42 B, 857.
experimental study of interposition materials, **41 A,** 1353.
history of, **40 A,** 1003.
ivalon sponge in, compressed, **42 A,** 725.
nylon membrane in, **42 A,** 548.
polyethylene joint capsules in, **40 A,** 217.
skin, **40 A,** *1003; **40 B,** 158, 159; **42 B,** 403; **43 A,** *1155; **44 A,** 587, 1014.
with cartilage and osteochondral grafts, **40 B,** *742; **41 A,** 1352; **42 A,** 186; **43 A,** *523.
see also under names of joints.
Arthroscopy
findings in joints paralysed by nervous lesions, **42 A,** 548.
in diagnosis of joint disease, **42 A,** 553.
Artificial limbs, 41 A, 1347.
in children, **44 A,** 1491.
— and young adults, questionnaire survey, **41 A,** *1437.
in U.S.A.
— exhibit by Prosthetics Research Board, **40 A,** 737.
— team approach in use of, **43 A,** 590; **44 A,** 1481.
International Prosthetics Courses, 1959, **41 B,** 886; 1961, **44 B,** 235.
lower, **43 A,** 462.
— below-knee, patellar tendon-bearing, **44 B,** *795.
— fitted in case of massive osteolysis, **44 B,** *652.
— fitting of, **42 A,** 556.
— for knee disarticulation, **43 A,** 312.
— hip disarticulation prosthesis, Canadian-type, bilateral, for congenital absence of both lower limbs, **41 A,** *417.
— plastic, U.S. Navy type, **41 A,** 1349.
Artificial limbs
lower (*continued*):
— S.A.C.H. foot, clinical experiences with, **41 A,** 1354; **42 A,** *226.
— sockets for, **40 A,** 220; **42 A,** 524.
— — aeration of, **42 A,** 556.
— special problems, **42 A,** 897.
— University of Cape Town design, **43 B,** 403.
sources of information on, **41 A,** 1345.
upper
— hands, **42 A,** 912.
— in children, age of fitting of, **40 A,** *655.
— pneumatic, **42 B,** 657.
Association of Bone and Joint Surgeons
annual meetings, 1959, **42 A,** 184; 1960, **42 A,** 1272; 1961, **44 A,** 792.
Nicholas Andry Essay Award, **42 A,** 365.
Association of Surgeons of East Africa, annual meeting, 1961, **44 B,** 231.
Association of Surgeons of India, Orthopaedic Section, meetings, **41 B,** 434; **44 B,** 442.
Astereognosis in cerebral palsy, **40 A,** *85; **44 A,** 1490.
Astragalus, *see* Talus.
Astrocytoma causing progressive neurological changes in children with scoliosis, **43 A,** *517.
Ataxia, cerebellar, with sex-linked inheritance, **42 A,** 351.
Ataxia-telangiectasia, 43 A, 306.
Atherosclerosis, *see* Vascular disorders, occlusive.
Athetosis
respiratory dysrhythmia in, control with respiratory equipment, **40 A,** 1204.
respiratory patterns in, **42 A,** 350.
Athletes, exercises for, **44 A,** *1177.
deep-squat, effect on knee ligaments, **44 A,** *1191.
Athletic injuries, *see under* Injuries.
Atlantic Provinces Orthopaedic Society, foundation of, **42 A,** 730.
Atlanto-axial joint
approach to, transoral, **44 A,** *1588.
dislocation
— due to hypoplasia of odontoid process, **42 A,** *1377.
— recurrent, in children, surgical fixation of, **40 B,** 159.
— with fracture of odontoid process, **40 B,** 347; **42 B,** 410.
subluxation
— due to congenital absence of odontoid process, **41 A,** *345.
— spontaneous, with atlanto-occipital subluxation, **41 A,** *341.
Atlanto-occipital joint, subluxation, spontaneous, with atlanto-axial subluxation, **41 A,** *341.
Atomic warfare, *see* Military surgery; Radiation injury.
Australia
occupational injuries in, compensation for, **41 B,** 635.

— obstetrical, **41 B,** 633.
— without history of violence in infants and children, **42 A,** *407.
— *see also* Fractures.
lesions
— containing giant cells, **42 A,** 1268; **43 A,** 595.
— diaphysial, **40 A,** 736.
— external counting of radio-isotopes in study of, **41 B,** *558.
lymphangiectasis, cystic, **43 A,** *107.
lymphatic pathways of, **42 A,** 716; **43 A,** 605.
magnesium content in normal and acidotic rats, **42 A,** *437.
marble, *see* Osteopetrosis.
marrow
— homografts of, **41 B,** 223.
— nerve supply of, **40 A,** 225.
— pressure in, effect of pressor and depressor drugs, **40 A,** *1103, 1198.
— radiography of, **42 A,** 550.
— total volume changes during body growth, **44 B,** 960.
mast cell infiltration of, **42 B,** 641.
matrix (*symposium*), **42 B,** 853.
— electron microscope study of lower femoral metaphysis in newborn infant, **40 A,** *687.
— histochemical comparison with osteoid, **43 A,** *419.
— in normal and osteoporotic bone, **44 B,** *458, *503.
— variations in chemical composition during growth, **40 A,** *1111.

Bone and bones (*continued*):
mechanical properties, significance of structure of osteones, **40 A,** 431.
membrane, calcification of, electron microscope study, **41 A,** 770.
metabolic diseases, **42 A,** *127; (*symposium*), **41 B,** 211.
— calcium excretion in, relation to calcium intake, **41 A,** 770.
— diagnosis (*exhibit*), **41 A,** 1348.
— — radioactive strontium in, **40 A,** 1199.
— *see also more specific terms.*
metabolic turnover in, **43 A,** 607.
metabolism (*symposium*), **41 A,** 968.
— effect of castration, **42 A,** *1349.
— radioactive isotopes as indicators of, **42 B,** 397.
— *see also* Calcium metabolism.
metaphysial cortical defects in growing long bones, **43 A,** *395 (*correction*, 921).
— late appearance and evolution in boy with delayed puberty, **42 A,** *173.
— *see also* Bone tumours, non-osteogenic fibroma.
microinterferometry, **40 A,** 701.
micropetrosis, **42 A,** *144.
microradiography, **40 A,** 698.
— clinical application, **42 B,** 663.
— in fracture healing and non-union, **43 B,** 185.
mineral
— content of human skeleton, **44 A,** *669.
— solubility studies, **44 B,** 226.
— ultrastructure of, **41 A,** 970.
— *see also* Bone density.
mucopolysaccharides of periosteum, effect of ageing, **41 A,** 770.
necrosis
— changes in radiographic density associated with, **42 B,** *626.
— comparison of physical properties of living and dead bone, **44 B,** *412.
— diagnosis, radioactive isotopes in, **42 B,** 650.
— fibrosarcoma arising at site of, **42 A,** *802.
— of osteocytes *in vivo*, **42 A,** *138.
— *see also* Osteochondritis.
nerve supply, **43 B,** 133.
— of marrow, **40 A,** 225.
osteoid seams, width of, in health and disease, **44 B,** 226.
Paget's disease of, **42 A,** 1280; **44 B,** 962.
— bone turnover in, studied with tetracyclines, **44 B,** 216, 225.
— complications of, **41 B,** 221.
— congestive heart failure in, **42 A,** 185.
— diagnosis, differential, **42 B,** *641.
— fracture of femoral neck in, **42 B,** 406.
— histological abnormalities of bone matrix in, **42 B,** 854.
— of patella, **40 A,** *1423.
— of skull and facial bones, **44 A,** *174.
— sarcoma in, **40 B,** 360; **42 A,** 911, 1443; **42 B,** 400; **43 A,** 199; **44 A,** 273, 1267.
— — in Australia, **43 A,** *1122.
— — incidence, **43 B,** 312.
— — — in south-west England, **44 B,** *366.
— — long survival after, **40 B,** *730, *735.
phosphatase activity in
— in foetal rat, **41 A,** 939.
— in growing rabbit, **41 B,** *401.
physiology, **40 A,** 969.
prosthesis, adjustable, for metacarpal of child, **44 A,** 586.
protein, **40 A,** 226.
pyrophosphate in, **40 B,** *333.
radiation injury to, **41 A,** 554; **42 B,** 410.
— after single injection of ^{90}Sr, **40 B,** 344.
— due to plutonium-239, **41 A,** 771.

Bone and bones
radiation injury to (*continued*):
— effect of ^{90}Sr on mobilisation of stable Sr from skeleton, **42 A,** *832.
radioactive, physical properties of, **41 A,** 771.
radioactive materials and (*symposium*), **42 B,** 394.
radiology, normal variations, **41 B,** 431.
Ranvier's ossification groove in foetal and post-natal rats, **40 B,** 344.
resorption
— and repair in ewe, **40 B,** 342.
— large cells containing crystals near site of, electron microscope study, **40 A,** *414.
— some factors affecting, in culture, **43 B,** 180.
— *see also* Osteitis fibrosa.
sarcoidosis, **40 B,** *256; **42 A,** 911; **44 A,** 1402.
saws
— Gigli's, introducers for, in McMurray's osteotomy, **41 B,** *776, *777.
— heat engendered by, effect on osteogenesis, **42 A,** 544.
screws, *see* Screws.
sesamoid
— of big toe
— — degeneration of, **42 B,** 158.
— — disorders of, **42 B,** *840.
— — excision of medial, **43 B,** 191.
— — osteochondritis of medial, **40 B,** 828.
— of index finger, recurrent locking due to, **40 A,** *1128.
— of subscapularis tendon, **43 A,** *881.
— *see also* Bones, accessory.
sodium in, ionic gradients across bone after injection of hydrochloric acid, **43 A,** 148.
staining qualities, effects of decalcifying agents, **40 B,** 342.
structure
— correlation with chemical composition, **42 B,** 856.
— molecular, **43 B,** 185.
— of osteones, three-dimensional, **40 A,** *419.
— recent observations on, **40 A,** *698.
— ultra-microscopic (*symposium*), **41 A,** 969.
— variations with age, **42 B,** 856.
surgery
— haemostatic wax for, absorbable, **40 A,** 218.
— metabolic effects of, **41 A,** *381.
— — spectrophotometric curves of urine, **40 A,** 231.
— prosthesis, adjustable, for metacarpal of child, **44 A,** 586.
— *see also* Osteosynthesis; Osteotomy.
— *see also* Surgical implants; Surgical instruments and accessories.
tissue culture of, **44 B,** 960; (*symposium*), **43 B,** 180.
— cytodifferentiation of osteoblasts in, **42 A,** *485.
— effect of low temperature, **42 A,** 551.
— factors affecting growth and calcification in, **42 A,** 557.
tuberculosis, *see* Tuberculosis of bone and joint.
tumours, **41 B,** 873; (*symposium*), 216.
— adamantinoma (so-called), **44 B,** *25, 961.
— biochemical studies, **42 A,** 545.
— cartilaginous, **44 A,** 793.
— chondroblastoma, benign, **42 B,** 409; **44 B,** 445.
— — in adult pituitary dwarf, **44 A,** *571.
— chondroma
— — following wrist injury, **41 B,** 632.
— — ossifying, of metacarpal bone and phalanges, **41 B,** *372.
— chondromyxoid fibroma, **42 B,** 405, *542; **44 B,** *7.
— chondrosarcoma, **42 B,** 409.
— — in multiple exostosis and Ollier's disease, **40 A,** 1437.
— — in Paget's disease, **42 B,** 400.

Bone and bones
tumours
— chondrosarcoma (*continued*):
— — of hand, **40 A,** *1139.
— — of pelvis, **44 A,** 799.
— — of scapula, **40 B,** 347; **44 A,** 799.
— — of spine, **41 B,** 222.
— — radioactive sulphur in, **42 A,** *1239.
— chordoma, *see under* Spine tumours.
— classification, **40 A,** 1436; **44 B,** 958.
— cyst-like lesions in, **42 A,** 546.
— desmoplastic fibroma, **42 A,** *1143; **43 B,** 863.
— diagnosis, **43 B,** 186.
— — arteriography, **43 B,** 186.
— — biopsy, **42 A,** 1106.
— electron microscope studies, **42 A,** 545, 546.
— enchondroma, multiple, *see* Ollier's dyschondroplasia.
— Ewing's, **43 A,** *185, 462.
— — and possible variant, in siblings, **42 A,** *1065; **43 A,** *572.
— — histochemical differentiation from reticulosarcoma, **41 A,** *349.
— — radiotherapy of, long survival after, **44 A,** 1015.
— fibrosarcoma, **40 B,** 360.
— — arising at site of infarcts, **42 A,** *802.
— — central, **40 A,** *121.
— — in Paget's disease, **40 B,** *730.
— — simulating Paget's disease, **42 B,** 641.
— — well-differentiated, of calcaneum, **42 A,** *1151.
— giant-cell, *see* osteoclastoma.
— giant-cell fibroma, **40 A,** 731.
— glomus, **44 B,** *648.
— haemangioma, **41 B,** 883.
— — multiple, **40 B,** 354.
— — — pathological features of, in unusual case of multiple abnormalities of bone, **42 A,** *1329.
— — of spine, **40 A,** 974; **42 B,** 857.
— — *see also* Osteolysis, massive.
— in children, **42 A,** 1268.
— incidence in private orthopaedic practice, **44 A,** 796.

and flexor tendon grafting, **43 A,** 713.
Burns
bone and joint changes following, **41 A,** 371, *785; **42 A,** 895, 907.
periarticular calcification and ossification following, **41 A,** *103.
treatment, **43 B,** 183.
— levitation in, **44 B,** 220.
— skin grafting, open, **40 A,** *79.
see also Electrical injuries; Radiation injury; *and under parts of body involved.*
Burrows, Harold Jackson, appointed Chairman of British Editorial Board of the *Journal*, **43 B,** 599.
Bursae
at hip displacing femoral artery, **41 B,** 222.
of psoas major tendon, inflammation of
— in rheumatoid arthritis, **41 A,** *721.
— traumatic, **41 A,** *175.
of semimembranosus tendon, inflammation of, in rheumatoid arthritis, **41 A,** 730.
trochanteric, tuberculosis of, **40 B,** *411.
Bursitis
about knee, **42 A,** 186.
prepatellar, post-traumatic, undermining burrowing ulcer complicating, **43 A,** *1043.
subacromial, **42 B,** 158.
— intravenous priscoline for, **40 A,** 719.
trochanteric, **44 A,** 588.
Butazolidin, *see* Phenylbutazone.
Butler's operation for hallux valgus, 40 B, 346.

C

Caisson disease, 41 B, 880; **44 A,** 206.
bone and joint changes in, **42 A,** 808.
Calcaneal tendon, *see* Tendo calcaneus.
Calcaneo-cuboid joint, arthrodesis of, for relapsed club foot, **41 B,** 618.
Calcaneo-fibular ligament, rupture of, peroneus brevis tenodesis for, **40 B,** 357.
Calcaneo-navicular synostosis, 40 B, 359; **41 A,** 1540.
Calcaneum
development, post-natal, radiological study using posterior tangential view, **43 A,** *961.
excision of, **40 A,** 972.
fractures, **40 A,** 236; **42 A,** 543.
— anatomical study, **44 A,** 583.
— comminuted or depressed
— — lateral tarsal pain in, **40 B,** 597.
— — treatment, **41 A,** 369.
— — — arthrodesis, primary
— — — — subtalar, **41 B,** 632, 881; **42 B,** *336.
— — — — triple, **41 A,** *1423.
— — — excision, **40 A,** 972.
— — with fibular impingement, reconstruction of sinus tarsi for, **42 A,** 887.
— follow-ups, **41 B,** 869; **43 A,** 911.
— of anterior superior process of, non-union of, **41 A,** *178.
— stress, **41 A,** *1285.
— treatment
— — arthrodesis, subtalar, **44 B,** 444.
— — peroneal release in, **44 B,** 961.
osteotomy of
— for club foot, **42 B,** 858; **44 B,** 218.
— for flat foot, **43 A,** 300; **43 B,** 203.
— — in cerebral palsy, **44 A,** 1705.
— for pes cavus, **41 B,** *80; **43 B,** 610, 860; **44 A,** 809.
Paget's disease of, osteogenic sarcoma in, **42 B,** 400.
role in foot deformities, **44 B,** 748.
tumours
— fibrosarcoma, well-differentiated, **42 A,** *1151.
— hypernephroma, **40 B,** 347.
— osteoclastoma, **43 A,** 462.
Calciferol, *see* Vitamin D.
Calcification
ectopic
— about metacarpo-phalangeal joints, **43 B,** *250.
— after burns, **41 A,** *103, 785.

Calvé's disease of spine, *see* Vertebra plana.
Campbell, Willis C., Club, formation of James Spencer Speed Scholarship Foundation by, **43 A,** 158.
Canada
medicine in, history of, **43 B,** 609.
orthopaedics in
— report of tour in connection with Meeting of Orthopaedic Associations of English-speaking World, 1958, **40 B,** 595, 828.
— reports of Travelling Fellows, **40 B,** 817; **42 B,** 847.
Royal College of Physicians and Surgeons, election of Sir Walter Mercer to honorary fellowship, **43 B,** 609.
Canadian Medical Association, joint meeting with British Medical Association, 1959, **41 B,** 869.
Canadian Orthopaedic Association
annual meetings, 1959, **41 B,** 878; 1960, **43 B,** 610.
see also Travelling Fellows in Orthopaedic Surgery.
Canadian-type hip-disarticulation prosthesis, bilateral, for congenital absence of both lower limbs, **41 A,** *417.
Cancer, *see* Tumours, malignant.
Canute, his laws of compensation for loss of fingers, **42 B,** *390.
Cape Town University artificial limb, 43 B, 403.
Capener, Norman
elected to Council of Royal College of Surgeons of England, **43 B,** 607.
presented with *Médaille d'Argent de la Ville de Paris*, **44 B,** 235.
Capitate bone, fractures, **44 A,** *1537.
Carcinoma
hypernephroma of calcaneum, **40 B,** 347.
metastatic to bone, fractures due to, **43 B,** 862.
— treatment, **40 B,** *652.
metastatic to hand, **40 A,** *263.
metastatic to spine
— paraplegia in **44 B,** 440.
— simulated by non-malignant segmental vertebral sclerosis, **40 A,** 732.
of breast
— lymphangiosarcoma following mastectomy for, **44 A,** *277.
— metastasis to bone, subperiosteal, **42 A,** *1084.
of lung, apical, orthopaedic surgeon and, **42 A,** *605.
of parathyroids, **40 B,** *546.
Carpal bone, "hunchback", 43 A, *392.
Carpal tunnel syndrome, 40 B, 835; **41 B,** 870; **43 A,** 153; **44 A,** 1036.
anatomical and clinical study, **40 A,** 956; **41 A,** *626.
due to gout, **40 A,** 753; **43 A,** 739, 752.
due to thrombosed median artery, **40 A,** *1426.
treatment, incision of carpal ligament and reconstruction of tunnel, **43 B,** 405.
Carpo-metacarpal joints
dislocation, **42 B,** *772.
of thumb
— osteoarthritis of, excision of trapezium for, **41 A,** *609; **41 B,** 425; **42 B,** *502.
— radiography, anteroposterior projection by radial shift of carpal tunnel view, **40 A,** *1156.
Carpus, *see* Wrist; *see also names of carpal bones.*
Cartilage
apophysial, effect of muscle action on, **40 B,** 158.
articular
— biochemical studies
— — normal values, **40 A,** *142.
— — values following denervation of an extremity, **40 A,** *153.
— — values following immobilisation of an extremity, **41 A,** *1127.
— calcification of, associated with hyperparathyroidism, **42 B,** *530.
— degeneration, **42 B,** 854.
— — synovial fluid sulphate values in arthritis, **40 A,** *457.
— diffusion of dyes through, *in vivo*, **44 A,** *456.
— effect of continuous compression on, **42 A,** *31; **43 B,** *376.
— effect of reducing viscosity of synovial fluid on, **42 A,** 551.
— electron microscope study in osteoarthritis of hip, **40 B,** *123.
— growth of, studied with tritiated thymidine, **44 A,** *682.
— lysis of, in arthritis, **41 B,** *384; **44 A,** 1028.
— mechanical behaviour under compressive stress, **44 A,** *699.
— physical properties, **40 A,** 1200.
— regeneration or repair of, **41 B,** 434.
— — after tuberculous arthritis, **44 B,** 34.
— — in immature animals, **44 A,** *431.
— — — studied with tritiated thymidine, **44 A,** *688.
— restoration by grafting, **40 B,** 349, *742; **41 A,** 764, 1352; **42 A,** 186, 544; **43 A,** *523; **44 A,** 1255.
effect of papain on, prolonged administration in suckling rats, **43 A,** *679.
epiphysial
— blood supply adjacent to
— — effect of interruption of, **42 B,** *571.
— — influence on growth, **41 B,** 206.
— — — electron microscope studies, **42 B,** *367.
— — — injection studies, **42 B,** *97.
— calcification of, *see* Calcification.
— changes due to papain, **41 B,** *836.
— — intramedullary injection, **43 A,** 605.
— changes in experimental congenital defects, **41 A,** 772.
— changes in gonadal dysgenesis, **42 A,** *600.
— changes in insulin-dwarfed chicks, **41 A,** *1094.
— changes in Morquio's syndrome and dysplasia epiphysialis multiplex, **44 A,** *295.
— changes in osteolathyrism, **41 B,** *590, *600.
— — enzyme alterations, **43 A,** *669.
— — suppression by thyroxine etc., **40 B,** 159.
— chloride localisation in, **41 A,** *1517.
— closure of, premature, after frostbite, **41 B,** 881.
— effect of distracting forces on, **42 A,** 356.
— effect of experimental trauma to, **40 A,** *887; **41 A,** *1221; **42 A,** 542.
— effect of muscle action on, **40 B,** 158.
— effect of pressure on, **43 B,** *800.
— enzyme distribution in, **42 A,** *457, 719.
— growth of, in transplanted foetal bones, **44 B,** *149.
— Harris test in study of, **42 A,** 719.
— injuries, **44 B,** 444.

Cartilage
epiphysial (*continued*):
— mechanics of, **41 A,** 1536.
— Ranvier's ossification groove in foetal and post-natal rats, **40 B,** 344.
— transplantation of, **40 A,** 715, 741.
— zone of provisional calcification, erosion by capillaries, **43 B,** *590.
— *see also* Bone growth, longitudinal; Epiphysial stapling; Epiphysiodesis.
histogenesis of, localisation of alkaline phosphatase in, **41 A,** *939.
in fracture healing, experimental production in skull vault in rats, **40 B,** *274.
intervertebral, *see* Discs, intervertebral.
matrix
— action of vitamin A on, in culture, **43 B,** 180.
— histochemical comparison with bone matrix and osteoid, **43 A,** *419.
— in femur of newborn infant, electron microscope study, **40 A,** *163.
regeneration, **40 A,** 227.
semilunar, *see* Menisci.
staining qualities, effects of decalcifying agents, **40 B,** 342.
structure and function, **44 A,** *777.
sulphur metabolism of, *in vitro*, **42 A,** *165.
— effect of various adjuvants, **44 A,** *464.
tumours, **42 B,** 409; **44 A,** 793.
— *see also* Ollier's dyschondroplasia.
see also terms beginning with Chondro-.
Cassette holder
for hip surgery, **41 A,** *1339.
for nailing fractures of femoral neck, **40 B,** *740; **41 A,** 1357.
mobile, adjustable, for orthopaedic operations, **41 B,** *774.
Castration, effect on metabolism of Sr^{85}, **42 A,** *1349.
Casts, *see* Plaster-of-Paris.
Cathodoluminography of bones, **42 A,** 550.
Cathomycin, *see* Novobiocin.
Cauda equina
compression
— by neuroblastoma, **44 B,** *886.
— delayed, due to retained lead bullet, **42 A,** *595.
ependymoma of, coccydynia due to, **43 B,** *344.
lesions and tight hamstrings due to spondylolisthesis, **43 A,** *505; **44 A,** 583.
Causalgia, 44 A, 765.
Cerebellar ataxia
with sex-linked inheritance, **42 A,** 351.
with telangiectasia, **43 A,** 306.
Cerebral aneurysm, anterior, occlusion of, rehabilitation after, **42 B,** 158.
Cerebral angiography by brachial route in diagnosis of cerebral palsy, **43 A,** 304.
Cerebral palsy, 40 B, 834; **41 B,** 619.
decortication rigidity in, **40 A,** 221.
diagnosis, early, **43 B,** 398.
electro-encephalographic studies, **40 A,** 221.
electromyographic studies, **40 A,** 1205; **43 A,** 595.
etiology, **40 B,** 833; **42 A,** 546; **43 B,** 407.
family doctor and, **44 A,** 1495.
foot deformities in
— equinus, treatment, operative, **40 A,** *1359; **41 A,** 182; **42 A,** *769.
— — gastrocnemius recession, **40 A,** *1019; **41 A,** *1021.
— etiology, role of tonic reflexes in, **41 A,** 772; **42 A,** *859.
— flat foot, treatment
— — arthrodesis, subtalar, extra-articular, **41 A,** 366.
— — osteotomy of calcaneum, **43 A,** 300; **43 B,** 203.
— treatment, operative, **41 B,** 621; **44 A,** 1705.
Cerebral palsy (*continued*):
growth patterns in, **42 A,** 351.
hand in
— forearm rotation splint, **40 A,** *483.
— sensory defects, **40 A,** *85; **42 A,** 900, 959; **43 A,** 153; **44 A,** 1490.
— surgery of, **41 A,** 565, 776; **42 A,** *951; **44 B,** 246.
— — tendon transplantation, **43 A,** 614.
— — — flexor carpi ulnaris, **44 A,** *1343 (*corrections*, **45 A,** 218).
— — — sublimis to first metacarpal, **44 A,** 423.
hip in
— adduction contracture, adductor myotomy and obturator neurectomy for, **42 A,** *111.
—adductor paralysis complicating treatment, transplantation of hamstrings for, **40 B,** *534.
— antiscissoring device, **42 A,** 1275.
— bony deformities, **44 A,** *1331 (*corrections*, **45 A,** 218).
— dislocation, **41 B,** 869; **44 B,** *573.
— — etiology and prevention, **41 A,** *440.
— — shelf operation for, **42 A,** *1223.
— femoral torsion, **40 A,** 813.
— internal rotation deformity, transplantation of semitendinosus for, **44 A,** 1705.
in light of new concepts of brain physiology, **40 A,** 1204.
knee flexion deformity in, treatment, **44 A,** 203.
— operative, **44 A,** *1146.
— — hamstring lengthening, **40 A,** 1205.
— — transplantation of tibial tubercle, effect on growth of upper tibial epiphysis, **42 A,** *1426.
ocular defects in, **42 A,** 352.
perspiration of palm in, **43 A,** 153.
prematurity and, **42 A,** 529.
prognosis in, **41 A,** 1535.
prognostic classification, **42 A,** 350.
recent advances in, **42 B,** 861.
reflex patterns in, **43 B,** 861.
respiratory dysrhythmia in, control with respiratory equipment, **40 A,** 1204.
respiratory patterns in, **42 A,** 350, 351.
sensory defects in, **40 A,** *85; **42 A,** 900, 959; **43 A,** 153; **44 A,** 1490.
speech deficiencies in, **42 A,** 352.
treatment, **43 B,** 398.
— at Fall River Training Center, **41 A,** 1357.
— at Reisterstown Children's Rehabilitation Institute, **41 A,** 1360.
— bracing, **44 A,** *1457.
— chemopallidectomy, **41 A,** 373.
— medical, method of evaluation, **43 A,** 599.
— muscle relaxants, W-712, **42 A,** 902.
— operative, **40 A,** 962; **40 B,** 834; **41 A,** 182; **41 B,** 635; **42 A,** 1267; **43 A,** 300; **43 B,** 179, 203, 404; **44 A,** 1016; **44 B,** *68.
— reflex therapies, **40 A,** 1205.
see also American Academy for Cerebral Palsy.
Cerebral vascular disease, sequelae of, treatment, orthopaedic, **40 A,** 727; **40 B,** 159; **42 B,** 158.
Cervical rib syndrome, *see* Thoracic outlet syndrome.
Cervical spondylosis, 42 A, 555; **42 B,** 860; **43 B,** 860; **44 B,** 750.

action of homogentisic acid on, **43 A,** 909.
arrangement of fibres in human secondary osteones, **42 B,** *588.
in calcification, specificity of macromolecular aggregation state of, **40 A,** 1198.
of bone, changes in osteoporosis, **42 B,** 855; **44 B,** *503.
of fracture callus in aminoacetonitrile-treated rats, **44 A,** 1022.
of intervertebral discs, changes associated with prolapse, **43 B,** *141.
synthesis by osteoblasts, **44 A,** 1233.
Collagen diseases, 42 A, 358.
hand in, **44 A,** 1409.
relation of de Quervain's disease to, **40 A,** 1063.
treatment, **42 A,** 885.
Collapatite in fixation of fractures of femoral neck associated with osteoporosis, **42 A,** 536.
Colles's fracture
comminuted, **43 A,** 462.
— treatment
— — transfixation with Kirschner wires and cast, **44 A,** *337, 804.
— — ulnar pinning, **43 A,** *657.
injury of articular disc associated with, **42 B,** 522.
non-union of, **40 B,** 596.
subluxation of piso-triquetral joint associated with, **42 A,** *1326 (*correction*, **43 A,** 322).
treatment
— by unassisted surgeon, **44 A,** 586.
— elbow hinge in, **44 B,** 227.
— posterior plaster slab, **42 B,** 159.
unstable, Kirschner wire fixation of, **43 A,** 600.
Colonna, Paul C.
capsular arthroplasty of hip
— for congenital dislocation, **40 A,** 223, 725; **41 A,** 920; **42 A,** 558; **42 B,** 701; **43 A,** 285; **43 B,** 194.
— for paralytic dislocation, **41 A,** *429.
trochanteric reconstruction operation, **42 B,** *5.
— for non-union of fractures of femoral neck, **41 B,** 619.
— for pain due to prosthesis, **41 A,** 181.
Common peroneal nerve, *see* Lateral popliteal nerve.
Compound palmar ganglion, *see* Tuberculous teno-synovitis.
Congenital abnormalities, 43 B, 608; **44 A,** 791.
etiology (*symposium*), **43 B,** 405.
— and prevention (*symposium*), **40 B,** 157, 160.
— helical growth theory, **43 B,** 401.
experimental, **41 A,** 772; **43 A,** 302; **43 B,** 203.
— insulin-induced, changes in growth cartilage in, **41 A,** *1094.
metabolic, associated with mental defect, **44 A,** 806.
multiple, **42 B,** 405, 410.
— undiagnosed case, **42 B,** 652.
of genetic etiology (*editorial*), **43 B,** 217.
of limbs
— classification, **43 A,** 916, *1202; **44 B,** 231.
— treatment, **41 B,** 857; **43 A,** 916.

* Indicates full article or appreciable part.

Congenital abnormalities (*continued*):
webbing
— of knees and elbows, **41 B,** 872.
— of knees in siblings, **41 B,** *355.
see also under names of tissues and parts of body.
see also specific terms.
see also Teratology Society.
Connective tissue
biochemical changes in periarticular structures after immobilisation, **43 A,** *1022.
in poliomyelitis, biochemical changes in fascia lata, **40 A,** 728.
matrix, electron microscope study, **42 B,** 853.
see also Collagen; Collagen diseases.
Contracture
cicatricial, **40 A,** 217.
Dupuytren's, **40 A,** *773.
— genetic factor in, **43 A,** 153; **44 B,** 219.
— incidence, **43 B,** 604; **44 B,** *602.
— pathogenesis
— — experimental and clinical study, **42 A,** *993.
— — new concept of, correlated with surgical management, **41 A,** *635.
— pathology, **40 A,** *773.
— treatment, operative, **44 B,** 243, 244, 245, 438.
— — complications of, **40 B,** 362.
ischaemic, **41 B,** 215.
— of forearm
— — after fractures in children, **44 A,** 1687.
— — due to traumatic tension, **41 B,** 628.
— — treatment, **44 B,** 220, 244.
— — — Seddon's method, **40 B,** 835; **43 A,** 153.
— — — tendon lengthening, **42 A,** 725.
— of intrinsic muscles of hand, **43 A,** 153; **44 B,** 243.
— — after burns, **40 A,** 631.
— of leg, **42 B,** 659; **44 A,** *730.
— — after fracture of femur in children, **44 A,** 206.
— — after fracture of tibial shaft, **40 B,** *190.
— — after orthopaedic surgery, **41 A,** 560.
see also under parts of body involved.
Convulsions, injuries due to
dislocation, posterior, of both shoulders, **42 B,** *728.
fracture of femoral neck, bilateral, **42 B,** 236.
Cooley's anaemia, bone changes in, **41 B,** 711; **44 A,** 1402.
Copenhagen, Orthopaedic Hospital, Hand Surgery Unit, **40 B,** 835.
Coraco-clavicular joint, bilateral, in Australian aboriginal, **41 B,** *180.
Coracoid transplantation for recurrent dislocation of shoulder, **40 B,** *198.
Corns, *see* Plantar keratosis.
Corticotropin, *see* A.C.T.H.
Cortisone
effect of intermittent administration in rabbit, **40 B,** *103.
effect on autogenous bone grafts, histological and alkaline phosphatase changes, **41 A,** *1149.
effect on bone subjected to mechanical stress, **40 B,** *558.
effect on fracture healing, **40 A,** 229; **42 A,** 541.
impairment of wound healing by, effect of leucine, **42 A,** 544.
in treatment of joint tuberculosis, experimental study, **42 A,** 553.
in treatment of leprosy, **42 A,** 680.
injection, local, for non-specific inflammatory changes, **40 B,** 357.
therapy, arthropathy of hip complicating, **44 B,** 229.
use in tendon surgery, **41 B,** 209; **42 A,** 556.

Ectopia vesicae, *see* Bladder, urinary, ectopic.
Ectrodactylia, reconstruction in, **40 A,** 951.
Edelstein, J. M., appointed to chair of orthopaedic surgery, University of Witwatersrand, **44 B,** 963.
Edinburgh
and early Canadian medicine, **43 B,** 609.
orthopaedic pioneers of, **42 B,** 393.
Royal College of Surgeons, meeting of British Editorial Board of *Journal* at, presentation of gavel by Sir Walter Mercer, **42 B,** 154.
University, Chair of Orthopaedic Surgery, appointment of J. I. P. James, **40 B,** 147.
Education
and rehabilitation of physically disabled boys, establishment of Hephaistos School, **41 B,** 430.
for less-developed parts of British Commonwealth, **43 B,** 173.
in orthopaedics, **44 A,** 1701.
— and traumatology (*symposium*), **43 A,** 293; **43 B,** 200.
— paediatric, resident, in U.S.A., **44 A,** 411.
— resident training programmes in U.S.A., **44 A,** 392.
— undergraduate
— — at Georgetown University, **42 A,** 184.
— — report of committee of American Academy of Orthopaedic Surgeons, **43 A,** *453.
in traumatology, **43 B,** 645.
see also Research.
Eggers, G. W. N.
operation for flexion contracture of knee in cerebral palsy, **44 A,** 808, *1146.
plates in fixation of fractures
— of forearm, **43 A,** *1115.
— of tibia, **40 B,** 832.
Egypt, ancient, orthopaedic and traumatic lesions in, **44 B,** *944.
Ehlers-Danlos syndrome, 40 A, 663.
hand in, **44 A,** 1040.
skeletal changes in, **43 A,** *855.
with unusual features, **41 B,** *541.
Eicher hip prosthesis, 44 A, 200.
Elbow
arthritis
— nonspecific, **42 B,** 410.
— traumatic, from use of pneumatic drill in coal miners, **40 A,** 223.
Elbow (*continued*):
arthrodesis, central graft operation, for tuberculosis, **41 A,** *1029.
arthroplasty
— of radio-humeral joint, cartilage grafting in, experimental study, **40 B,** *742.
— skin, **40 B,** 159.
deformity following supracondylar fractures of humerus, **42 A,** *235.
dislocation
— congenital, of head of radius, **42 A,** 530.
— — posterior, bilateral, familial, **40 B,** *483.
— lateral
— — of head of radius with greenstick fracture of upper end of ulna, **42 B,** *782.
— — with fracture of medial epicondyle of humerus, **42 B,** 778.
— posterior, compound, with rupture of brachial artery, **44 B,** *119.
— recurrent, **42 B,** 399, 406.
— reduction, closed, without anaesthesia, **40 A,** 232.
fracture-dislocation, **42 B,** 858.
— Monteggia's, **40 B,** 345.
— — prognosis according to type of lesion, **43 B,** 201.
— — with unreduced radial head, **42 B,** 406.
fractures
— compound, **40 B,** 148.
— in children, **40 A,** 233.
— severe, **42 A,** 1106.
— *see also under* Humerus; Radius; Ulna.
injuries in javelin throwers, **42 B,** *788.
nerve supply of lateral epicondyle and humero-radial joint, **41 A,** 147.
ossification, para-articular
— bilateral, **43 A,** *876.
— of posterior aspect of, **42 A,** *1156.
pain, **43 B,** 398.
paralysis
— extensor, biceps transfer for, **40 B,** 596.
— flexor, tendon transfer for, **40 A,** 960; **41 B,** *44.

— treatment, **43 B,** 614.
— — denervation, **41 A,** *147; **43 B,** 615.
— — resection of synovial membrane, **42 B,** 400.
tuberculosis, arthrodesis for, central graft operation, **41 A,** *1029.
ulnar nerve compression at
— after fractures of medial epicondyle, **40 B,** *396; **42 B,** 780.
— after fracture of olecranon, **42 A,** 537.
— treatment
— — decompression, **43 B,** 188, 614.
— — excision of medial epicondyle, **41 B,** *51; **43 B,** 614.
Electrical injuries
high-tension, **41 A,** 182.
of hand, **43 A,** 612.
of upper limbs, **40 A,** *27.
Electroconvulsive therapy, hip injuries during, bilateral, **42 B,** *236.
Electrodiagnosis, 40 B, 149; **43 B,** *222.
Electro-encephalography in cerebral palsy, **40 A,** 221.
Electromyography, 42 A, 550.
during exercise on stationary bicycle, **41 A,** *123.
in cerebral palsy, **40 A,** 1205.

* Indicates full article or appreciable part.

Electromyography (*continued*):
in diagnosis of lumbar nerve compression, **43 B,** 857.
in evaluation of nerve injuries of upper limb, **44 A,** *1047.
in evaluation of tendon transfers, **40 A,** 735.
— about knee, **42 A,** *919.
— anterior transposition of peroneal tendons, **42 A,** *59.
— in lower limb, **41 A,** *189.
in spinal cord compression, experimental, **40 A,** 224.
in study of factors preventing downward dislocation of adducted shoulder joint, **41 A,** *1182.
in study of function of muscles acting on ankle during weight-bearing, **41 A,** *1469.
in study of scoliosis, **44 B,** *102.
motor-unit action-potential counts, **42 A,** *1207.
normal patterns in leg muscles during function, **44 B,** 956.
of temporo-mandibular joint, **43 B,** 396.
response of human skeletal muscle to passive stretch, **42 A,** *1091.
Electrotherapy, polarisation, low-frequency pulse rectangular, **40 A,** 218.
Ellis-van Creveld syndrome, *see* Chondro-ectodermal dysplasia.
Elmslie's operation for calcaneus deformity, 44 B, 220.
Embolectomy, 40 A, 984.
Embolism, fat, 43 A, 1070; **43 B,** 863; **44 A,** 762; (*editorial*), **44 B,** 761.
diagnosis, laboratory aids in, **42 A,** 1277.
effect of antihistamine on, **41 A,** 553.
experimental study, **43 A,** 148.
— with radioactive iodine, **41 A,** 372.
following blood transfusion, **44 A,** 770.
peptic ulcers complicating, **44 B,** *790, *794.
serum lipase levels after orthopaedic injuries and operations, **41 A,** 372.
— correlation with incidence of lipuria, **42 A,** 538.
treatment, heparin, **42 A,** 724.
— and intravenous fluids, **41 A,** 372.
Embolism, pulmonary, complicating orthopaedic surgery and trauma, **43 B,** *7; **44 A,** 1487.
Enamel, dental, organic matrix of
in some diseases, **42 B,** 854.
quantitative changes during growth, **42 B,** 853.
Encephalitis
recurrent posterior dislocation of shoulder after, **42 B,** 863.
tick-borne, osteitis due to virus of, experimental study, **44 B,** *722.
Encephalomyelitis complicating measles, periarticular calcification and ossification after, **40 B,** 832.
Enchondroma, multiple, *see* Ollier's dyschondroplasia.
Endocrine glands, effect of D.D.D. on, **40 A,** 228.
Endoprostheses, *see under parts of body replaced.*
Endothelioma of bone, *see* Ewing's sarcoma.
Engelmann's disease, 43 B, *273; **44 A,** 1019.
case with 22-year follow-up, **40 A,** *206.

Eosinophilic granuloma of bone, 42 A, *979, 1443; **42 B,** 399; **43 A,** 300; **43 B,** 202.
bone-marrow eosinophilia in, **41 A,** *1521.
of scapula, **44 B,** 961.
of spine, *see* Vertebra plana.
Ependymoma
of cauda equina, coccydynia due to, **43 B,** *344.
of spinal cord, **43 B,** *167.
Epicondylitis, *see* Tennis elbow.
Epidermoid cysts
intraspinal, in lumbar region of children, **43 B,** *556.
of terminal phalanx of finger, **44 A,** *377.
Epilepsy
association with Dupuytren's contracture, **44 B,** 608.
injuries caused by convulsions
— dislocation, posterior, of both shoulders, **42 B,** *728.
— fracture of femoral neck, bilateral, **42 B,** 236.
Epiphyses
blood supply of, **40 B,** *116.
displacement of, in spina bifida, **42 B,** *387; **44 B,** *106.
fracture-separation of, **40 A,** 967; **40 B,** 154; **44 A,** *1659.
— healing process in rats, **41 A,** *1055.
— prognosis, experimental study, **40 B,** *116.
fusion of
— in hand, longitudinal study, **42 A,** 876.
— premature, after frostbite, **41 B,** 881.
necrosis of, *see* Osteochondritis.
ossification of, multiple centres in long bones of hand and foot, **41 B,** *375.
slipping of, experimental study, **40 A,** 230.
transplantation of, **40 A,** 715, 741.
see also under names of bones.
Epiphysial cartilage
blood supply adjacent to
— effect of interruption of, **42 B,** *571.
— influence on growth, **41 B,** 206.
— — electron microscope studies, **42 B,** *367.
— — injection studies, **42 B,** *97.
calcification of, *see* Calcification.
changes due to papain, **41 B,** *836.
— intramedullary injection, **43 A,** 605.
— prolonged administration in suckling rats, **43 A,** *679.
changes in experimental congenital defects, **41 A,** 772.
changes in gonadal dysgenesis, **42 A,** *600.
changes in insulin-dwarfed chicks, **41 A,** *1094.
changes in Morquio's syndrome and dysplasia epiphysialis multiplex, **44 A,** *295.
changes in osteolathyrism, **41 B,** *590, *600.
— enzyme alterations, **43 A,** *669.
— suppression by thyroxine etc., **40 B,** 159.
chloride localisation in, **41 A,** *1517.
effect of distracting forces on, **42 A,** 356.
effect of experimental trauma to, **40 A,** *887; **41 A,** *1221; **42 A,** 542.
effect of muscle action on, **40 B,** 158.
effect of pressure on, **43 B,** *800.
enzyme distribution in, **42 A,** *457, 719.
growth of, in transplanted foetal bones, **44 B,** *149.
Harris test in study of, **42 A,** 719.
injuries of, **40 B,** 154; **44 B,** 444.
matrix in femur of newborn infant, electron microscope study, **40 A,** *163.
mechanics of, **41 A,** 1536.
Ranvier's ossification groove in foetal and postnatal rats, **40 B,** 344.
transplantation of, **40 A,** 715, 741.
zone of provisional calcification, erosion by capillaries, **43 B,** *590.
see also Bone growth, longitudinal.

* Indicates full article or appreciable part.

Epiphysial dysplasia
hereditary, bilateral, of hips, **41 B,** *514.
multiple, **41 B,** 636; **42 B,** 862.
— confined to lower limbs, **42 B,** *313.
— double-layer patellae in, **44 B,** *569.
— simulated by familial Perthes' disease, **44 B,** *565.
— study of epiphysial cartilage in, **44 A,** *295.
see also Dysplasia epiphysialis capitis femoris; Dysplasia epiphysialis hemimelica.
Epiphysial stapling, 40 A, 1430.
for leg equalisation, **41 B,** 215; **44 B,** *82.
— growth patterns after, **42 A,** 540.
— with heavy Vitallium staples, **44 B,** *86.
for scoliosis, **43 B,** 858.
histological changes after, **42 A,** 186.
Epiphysiodesis
for leg equalisation, **41 A,** 1536.
for scoliosis, **42 A,** *965; **42 B,** *51.
Epiphysitis, *see* Osteochondritis.
Erythrocyte sedimentation rate in fracture patients, **40 A,** 226.
Esmarch bandage, 44 B, 939.
Ethoxyline resins, bonding of bones with, **40 B,** *804; **42 A,** 878.
Ethylenediamine
bone grafts treated with, **40 A,** 1198; **41 A,** 757; **43 A,** 1071; **43 B,** *152.
— residual nitrogen in, **42 A,** *1435.
European Association against Poliomyelitis, 6th Symposium, 1959, **41 B,** 883.
Ewing's sarcoma, 43 A, *185.
and possible variant in siblings, **42 A,** *1065; **43 A,** *572.
histochemical differentiation from reticulosarcoma, **41 A,** *349.
of humerus, **43 A,** 462.
radiotherapy of, long survival after, **44 A,** 1015.
Exarticulation, *see under* Amputation.
Exchange Fellows, *see* Travelling Fellows in Orthopaedic Surgery.
Exercise(s)
deep-squat, effect on knee ligaments, **44 A,** *1191.
for athletes, **44 A,** *1177.
on stationary bicycle, analysis of muscle action and joint excursion during, **41 A,** *123.
progressive resistance, for back pain, **40 A,** 229.
Exostoses, osteocartilaginous
following irradiation, **44 A,** *662.
multiple hereditary
— acid mucopolysaccharide excretion in, **43 A,** 606.
— bone growth in, **43 B,** *700.
— chondrosarcoma in, **40 A,** 1437.
— differential diagnosis from gonadal dysgenesis, **42 A,** 603.
of femur causing aneurysm of popliteal artery, **41 A,** *1526.

— — injections, **44 B,** 227.
— — operative, **40 B,** 830.
arthrodesis in growing hand, **43 B,** 863.
arthroplasty, **44 A,** 1037.
— with hinged prosthesis, **41 A,** *87; **42 A,** 907; **43 A,** *753.
balance, role of sublimi in, **41 A,** 777.
clubbing, **44 A,** 1397.
congenital deformities
—divergence of middle and ring fingers, **40 B,** 602.
— hypertrophy, **41 B,** 426.
— reconstruction in, **40 A,** 951.
— *see also* Brachyphalangy; Polydactyly; Syndactyly.
cysts
— epidermoid, of terminal phalanx, **44 A,** *377.
— synovial, **42 B,** 399.
extensor mechanism of, **43 B,** 188.
fascia of, anatomy, **44 B,** 243, 244.
fractures
— epiphysial, of base of proximal phalanx, **44 A,** 1486.
— splint for, **41 A,** 368.
— with soft tissue damage, rate of healing of, **43 A,** 152.
injuries
— finger-tip, **41 A,** 1353.
— — late results, **44 A,** 1034.
— skin cover in, **44 B,** 242, 243.
— soft-tissue, **43 A,** 620.
joints
—anatomy and splintage of, **41 B,** 626.
— proximal interphalangeal
— — stiffness of, **44 A,** 790.
— — subluxation, dorsal, chronic, correction by criss-cross volar graft, **41 A,** *111.
locking of, recurrent, at metacarpo-phalangeal joint, **40 A,** *1128; **42 A,** 907; **42 B,** *75; **43 A,** *240, *450; **43 B,** *772; **44 A,** *380.
mallet, **40 B,** 829; **41 B,** *546; **44 A,** *1061.
muscle function in, **44 B,** *899.
nomenclature of, history of, **42 B,** *390.
osteochondritis of, **40 B,** *538.
paratendinous apparatus of, **44 B,** *910.
phalanx, replacement of shaft with iliac bone graft, **43 A,** *905.
pollicisation of, *see under* Thumb.
reconstruction
— after loss of all fingers with preservation of thumb, **41 A,** *519.
— by composite grafts, **42 A,** 912.
skin grafting in, cross-finger pedicle, **42 A,** *261, 909.
tendons
— extensor, injuries of, Fowler's operation for, **43 A,** 152.
— flexor, injuries of, treatment, **40 A,** *256.
— — advancement of profundus, **43 A,** 601; **43 B,** 188.
— injuries of, **40 B,** 149.
transposition of, to balance grip in injured hand, **42 A,** 527.
Finger(s) (*continued*):
trigger
— relationship to rheumatoid tenosynovitis, **40 A,** 1234.
— treatment, operative, subcutaneous method, **40 A,** *793.
tumours, glomus, intraosseous, **44 B,** *648.
see also Hand; Thumb.
Fistulae, arteriovenous
bone growth stimulation by production of, **40 B,** 820.
congenital, **44 A,** *815.
— about knee, **40 B,** 361.
— involving femur, **41 B,** *358.
effect on vascular pattern of femora of immature dogs, **41 A,** 773, *1101.
popliteal, complicating meniscectomy, **44 B,** 744.
Fitzgerald's anchored cup prosthesis for hip, **40 B,** 793.
Flat foot, 44 A, 586.
congenital
— due to vertical talus, **40 B,** *33; **42 A,** 885, 1265, 1276; **44 B,** 229.
— ossification of calcaneum and talus in, **43 A,** *961.
in cerebral palsy, treatment, operative, **44 A,** 1705.
— arthrodesis, subtalar, extra-articular, **41 A,** 366.
mobile, arthrodesis for, subtalar, extra-articular, **40 B,** 347.
painful, movement of big toe in, **42 B,** 159.
paralytic, treatment
— arthrodesis, subtalar, extra-articular, **43 B,** 398, 853; **44 A,** 1265.
— tendon transplantation into talus, **41 B,** 856; **42 A,** *1119.
spasmodic
— associated with calcaneo-navicular bar, **40 B,** 359.
— bilateral, associated with talo-navicular synostosis, **43 A,** *1237.
— twenty-year follow-up, **43 B,** *734.
treatment
— conservative, **40 B,** *674; **44 B,** *642.
— osteotomy of calcaneum, **43 A,** 300; **43 B,** 203.
— tibialis posterior transfer, **44 A,** 1015.
Flexor carpi radialis transfer in cerebral palsy, **42 A,** 953.
Flexor carpi ulnaris transfer in cerebral palsy, **42 A,** 952; **43 A,** 304; **44 A,** *1343 (*corrections*, **45 A,** 218).
Flexor digitorum profundus tendon repair
by advancement, **43 A,** 601; **43 B,** 188.
— delayed, **40 A,** *1241.
by grafting, **42 A,** 910, *1363.
Flexor digitorum sublimis
and finger balance, **41 A,** 777.
tenodesis
— for "intrinsic-plus" deformity in cerebral palsy, **42 A,** *951.
— for ulnar claw hand, **41 B,** 217.
transfer
— for flexion deformity of fingers in cerebral palsy, **42 A,** 953.
— for ulnar claw hand, **40 B,** *618; **41 B,** 217.
— to first metacarpal in cerebral palsy, **44 A,** 423.
— to restore opposition, **40 B,** 362; **41 B,** 882; **42 A,** 913, 914, *1015; **43 B,** 188.
Flexor pollicis longus, morphology and clinical significance, **42 A,** *467.
Fluon, *see* Polytetrafluorethylene.
Fluorosis (*symposium*), **44 B,** 437.
endemic, **44 A,** 1026.
— bone changes in, **44 B,** *806.
Follicle-stimulating hormone, effect on growth of chick embryo, **42 A,** 557.
Follow-up notes (*editorials*), **44 A,** 1245, 1696.

Herndon, Charles H., appointed to Chair of Orthopaedic Surgery, Western Reserve University, **43 A,** 468.
Herpes zoster, motor paralysis in, **43 A,** *885, 915.
Hexosamine content of periarticular tissues, changes after immobilisation, **43 A,** *1022.
Hey Groves, E. W., *see* Groves, E. W. Hey.
Hibbs, Russell A.
arthrodesis of spine, **41 B,** 633.
— cervical, for neck paralysis, **40 A,** 720.
— for Charcot's arthropathy, **41 A,** *336.
— for low back pain, with screw fixation, **41 A,** 1538.
— for scoliosis, **40 A,** *511, *529, *555; **40 B,** 820.
Society, annual meetings, 1957, **40 A,** 959; 1958, **41 A,** 181; 1959, **42 A,** 355; 1960, **42 A,** 1277; 1961, **44 A,** 202.
Hildebrandt's operation for abductor paralysis of shoulder, **40 A,** 638.
Hilgenfeldt's operation of thumb replacement by middle finger, **40 A,** 955.
Hindenach's operation for recurrent posterior dislocation of shoulder, **40 B,** *203.
Hindquarter amputation for malignant tumours, **41 A,** 568.
survival rates after, **42 A,** *1041; **43 A,** *845.
Hindquarter avulsion, 44 B, *384.
Hip
amputation at, *see* Hip disarticulation.
ankylosis
— cup arthroplasty for, **43 A,** 1264.
— in ankylosing spondylitis, **44 A,** 1202, 1207.
approaches to
— Gibson's lateral, **41 A,** 558.
— low posterior, **42 B,** 408.
— straight lateral, with preservation of abductors, **41 A,** 557.
arthritis
— chronic, disintegration of femoral head complicating, **43 B,** 220, 860.
— pyogenic, **41 B,** 872; **44 B,** 851.
— — complicating decubitus ulcers, **42 A,** *1165.
— — complicating surgery, **41 A,** 365.
— — in children, dislocation following, shelf operation for, **42 A,** *1223.
— — in infancy, **42 A,** *23, 700; **42 B,** *11, 403, *706; **43 A,** 295; **43 B,** 191, 201.
— — — reconstruction operation for, **40 B,** 596.
— — — replacement arthroplasty for, **41 A,** 558; **44 A,** 1020.
Hip
arthritis (*continued*):
— unusual, bilateral, **40 B,** 601.
— *see also* Hip, osteoarthritis; Hip, rheumatoid.
arthrodesis, **42 A,** 905, 1107; **43 A,** *923; **43 B,** 611; **44 A,** 1703.
— Brittain's ischio-femoral, **43 A,** *363.
— — V-type, **44 B,** 228, 438, *588.
— by compression apparatus, **43 A,** *492.
— by resection of femoral head and ilio-femoral intramedullary nailing, **42 A,** 545.
— central dislocation operation, **41 A,** 570; **41 B,** 429, 623; **42 B,** *466, *476, 659; **43 B,** 399; **44 B,** 741.
— for Charcot's arthropathy, **40 B,** 358.
— for failed replacement arthroplasty
— — using Küntscher nail, **44 B,** 441.
— — with retention of prosthesis, **42 A,** *1062; **43 A,** *555.
— in poliomyelitis, **40 A,** 728; **44 A,** 1264.
— intra-articular, for tuberculosis with massive joint destruction, **44 B,** *800.
— pedicle bone graft in, **43 A,** 303; **43 B,** 204, 405.
— photo-electric studies, **40 A,** 217.
— Pyrford method, **43 A,** 461.
— Schneider nail fixation in, **43 A,** 1070.
— with chip grafts, **40 B,** 827.
— with new internal fixation device, **44 A,** 1486.
— with Smith-Petersen nail and massive bone graft, **42 A,** 721.
— with staple fixation, **40 A,** *114.
arthrography
— in children, hazards of, **44 B,** 443.
— in congenital dislocation, **43 A,** 285; **43 B,** 194, 197.
arthroplasty
— acetabular prosthesis, **42 A,** 356, 901, 1267.
— approaches for
— — Gibson's lateral, **41 A,** 558.
— — straight lateral, with preservation of abductors, **41 A,** 557.
— "cartilage cup", **40 B,** 596, 822.
— cartilage grafting in, experimental study, **41 A,** 1352; **42 A,** 186.
— central dislocation operation, **40 A,** 964; **43 B,** 192; **44 A,** 809.
— Colonna's capsular, **40 A,** 223, 725; **41 A,** 920; **42 A,** 558; **42 B,** 701; **43 A,** 285; **43 B,** 194.
— — for paralytic dislocation, **41 A,** *429.
— Colonna's trochanteric reconstruction operation, **41 B,** 619; **42 B,** *5.
— cup, **40 B,** 818, 828; **41 A,** 374; **44 A,** *1497.
— — Crawford Adams's, **43 A,** *431.
— — fixed cup, **40 A,** 970; **42 A,** 549.
— — for bony ankylosis, **43 A,** 1264.
— — for fractures of acetabulum, **43 A,** 55.
— — for osteoarthritis, **42 B,** 403.
— — primary, for posterior dislocation with fracture of femoral head, **40 A,** *675.
— cup-stem, intramedullary, **43 A,** 602.
— for congenital dislocation, **40 A,** 223.
— for rheumatoid arthritis, **41 A,** *705.
— mechanical problems of, **40 B,** *778.
— prosthetic, **41 A,** 565; **41 B,** 631; **42 A,** 1107; **43 A,** 909; **44 A,** *1155.
— — acetabular stress due to badly-fitting head, **41 A,** 765; **43 A,** 598.
— — acrylic, **40 B,** 360.
— — after excision of femur and turn-up plasty of leg, **42 B,** 650.
— — anchorage of prosthesis with acrylic cement, **42 B,** *28.
— — biomechanics of ideal prosthesis, **42 A,** 184.
— — by low-friction technique, **43 B,** 601, 606.

* Indicates full article or appreciable part.

Hip
arthroplasty
— prosthetic (*continued*):
— — cineradiography in study of, **41 A**, 1348.
— — Eicher prosthesis, **44 A**, 200.
— — failed, secondary operations for, **41 A**, 181; **43 A**, 1263.
— — — arthrodesis with Küntscher nail, **44 B**, 441.
— — — arthrodesis with retention of prosthesis, **42 A**, *1062; **43 A**, *555.
— — final report of American Academy of Orthopaedic Surgeons, **41 A**, *883.
— — for fractures of femoral neck, **40 A**, 233, *877, 964, 970; **40 B**, 354; **41 B**, 431; **42 B**, 857; **43 B**, 606, 611; **44 A**, 1705.
— — — in Paget's disease, **42 B**, 406.
— — for septic arthritis in infancy, **41 A**, 558.
— — in children, **44 A**, 1020.
— — Judet prosthesis, **40 B**, 354, 831; **42 B**, 660; **44 B**, 439.
— — Lippmann prosthesis, **40 A**, 737.
— — McKeever prosthesis, in dogs, **44 A**, 797.
— — Moore prosthesis, **43 A**, 910; **43 B**, 400; *film*, **42 A**, 720.
— — right- and left-sided prostheses for, with interchangeable lock-on heads, **43 A**, 600.
— — short-stem, **41 A**, 764.
— — Stamm prosthesis, **44 B**, 229.
— — Thompson prosthesis, **42 B**, 857.
— skin, **40 B**, 158.
— — experimental study, **43 A**, *1155.
articular cartilage of, physical properties, **40 A**, 1200.
bursa displacing femoral artery, **41 B**, 222.
calcification and ossification around
— after encephalomyelitis complicating measles, **40 B**, 832.
— in neurological disease, **40 A**, 735.
— in traumatic paraplegia, **40 B**, 350.
Charcot's arthropathy of
— after intra-articular cortisone therapy, **44 B**, 229.
— arthrodesis for, **40 B**, 358.
cysts
— subchondral, **41 A**, 766, 1352; **41 B**, 633.
— synovial
— — in rheumatoid arthritis, **41 A**, *721.

Homogentisic acid
effect on collagen, **43 A**, 148, 909.
metabolism in alkaptonuria, **41 A**, 1169; **42 A**, 822.
Hong Kong University, establishment of Chair of Orthopaedic Surgery at, **44 B**, 232.
Hookplate for fixation of small bone fragments, **42 A**, 1266; **43 A**, 602.
Hoover sign, **43 A**, 596.
Hôpital Cochin, opening of new block for orthopaedics and injuries, **42 B**, 159.
Hospital for Joint Diseases, Alumni Association, annual meeting, 1960, **43 A**, 607.
Hospital(s)
orthopaedic, in Britain, **41 B**, 622.
paediatric, in U.S.A., **44 A**, *398.
services, organisation of (*symposium*), **43 A**, 293; **43 B**, 200.
see also Accident services; *see also names of hospitals*.
Hospital schools, Hephaistos School, establishment of, **41 B**, 430.
Howorth bone-pegging operation for slipped upper femoral epiphysis, **41 A**, 253.
Huckstep, Ronald, **44 B**, 231.
Humerus
amputation through, stump lengthening by bone-grafting, **41 A**, *409.
capitulum of, osteochondritis of, **42 A**, *513.
epiphysis, lower
— fracture-separation of, **42 A**, *333.
— radiological relationship with shaft, **41 B**, 434.
epiphysis, upper, fracture-separation of
— in pituitary giant, **44 A**, *189.
— open reduction of, **41 A**, 183.
fractures
— compound, with radial nerve injury, Guillain-Barré syndrome following, **42 A**, 1278.
— of epicondyles of, **43 B**, 614.
— — lateral, **40 A**, 227.
— — — in children, **41 B**, 631; **44 B**, 443.
— — — — non-union of, **40 B**, *396; **42 B**, 233.
— — medial, **42 B**, *778, 858.
— of lower end of, in children, **40 A**, 233.
— of shaft of, **44 A**, 424.
— of upper end of, **44 A**, *984.
— pathological, from metastatic cancer, management of, **40 B**, *652.
— supracondylar, **40 B**, 354.
— — in children, **40 A**, 966; **41 B**, 881; **42 A**, 1268; **43 A**, 598; **44 A**, 584.
— — — complications of traction treatment, **41 A**, 369.
— — — deformity following, **42 A**, *235.
— with radial nerve paralysis, **42 A**, 1278; **44 A**, 1017, 1257.
— *see also* Elbow fractures.
replacement of upper part by fibular graft, **42 A**, 1143.
— follow-up after 29 years, **41 B**, *365.
supracondylar process of, fracture of, **41 A**, *1333.
tumours
— of head of, **42 B**, 405.
— Ewing's, **43 A**, 462.

* Indicates full article or appreciable part.

Humerus
tumours (*continued*):
— metastatic, fractures due to, management of, **40 B,** *652.
— sarcoma, in Paget's disease, **40 B,** *730.
— synovioma, malignant, congenital, **42 B,** *742.
Hunchback carpal bone, 43 A, *392.
Hunterian Oration, 1959, **41 B,** 423.
Hurler's syndrome, *see* Gargoylism.
Hyaluronic acid
effect on sulphate metabolism in cartilage slices, **44 A,** *464.
in synovial fluid, viscosity studies, **41 B,** *388.
Hyaluronidase, effect on fracture healing, **42 A,** 551.
Hybbinette-Eden operation for recurrent dislocation of shoulder, **44 A,** 1004.
Hydatid disease of bone, **44 B,** 443.
of femur, **40 B,** 361.
of spine, **41 B,** *499.
Hydrarthrosis, chronic, synovectomy for, **40 A,** 225.
Hydrocephalus, follow-up, **44 A,** 808.
Hydrocortisone
accelerating effect on tuberculosis, **40 A,** 219.
injection, local, **40 B,** 357, 826.
— complications of, **41 B,** 636.
— for de Quervain's disease, **40 A,** 1070.
— for Dupuytren's contracture, **40 A,** 784.
— for intervertebral disc lesions, **43 B,** 863.
— for tennis elbow, **43 B,** 102.
Hypercalcaemia, problems in, **40 A,** 960.
Hyperkalaemia in traumatic renal failure, **40 B,** *58.

Hypophosphatasia, 40 B, *64.
possible relationship to idiopathic osteoporosis, **40 B,** 438.
Hypothenar muscles, duplication of, simulating soft-tissue tumour, **42 A,** *1058.
Hypothermia in prevention of damaging effects of tourniquets, experimental study, **42 A,** *945.
Hypothyroidism, *see* Hashimoto's thyroiditis.
Hypotonia, muscular, 42 A, 351; **43 A,** 304.
Hysterical deformities of fingers, **44 B,** 245.

I

Iliac arteries
external, injury to, during hip surgery, **43 B,** 402.
occlusive disease of, **41 A,** 184; **43 B,** 404; **44 A,** 794.
— low back pain in, **41 B,** *244.
Iliac horn syndrome, *see* Osteo-onychodysplasia.
Ilio-pectineal bursa, *see* Bursa of psoas major tendon
Ilio-psoas
myotomy with obturator neurectomy for flexion and adduction spasticity of both hips, **42 B,** 398.
paralysis, transfer of abdominal muscles for, **44 B,** 443.
release operation for osteoarthritis of hip, **41 B,** *888; **43 B,** 614, 859; **44 B,** 217, 961.
tendon lengthening in open reduction of congenital dislocation of hip, **44 B,** 259, 274.
transfer
— for abductor paralysis, **40 B,** 597; **41 A,** 181; **41 B,** *289.
— for quadriceps paralysis, **42 A,** 533.
Ilio-psoatic syndromes, 42 A, 901.
Ilio-tibial tract
clinical and morphological significance, **40 A,** *817.
transfer, with gluteus maximus and tensor fasciae latae, for paralysis of lateral abdominal muscles, **40 B,** *644.
Ilium
apophyses of, growth of, relation to evolution of curves in scoliosis, **40 B,** *442.
biopsy of, in study of osteoporosis, **42 A,** 550.
Illinois University, Division of Services for Crippled Children, juvenile amputees supplied with prostheses through, questionnaire survey, **41 A,** *1437.
Illustration, orthopaedic, **41 B,** 635.
Immobilisation
and remobilisation of joints, histological study, **42 A,** *737 (*correction*, 1108).
biochemical changes in periarticular tissues after, **43 A,** 604, *1022.
effect on apophysial and epiphysial cartilage, **40 A,** 225; **40 B,** 158.
effect on articular cartilage, biochemical study, **41 A,** *1127.
effect on calcium and strontium metabolism, **42 A,** 540.
of joints in extension, vascular changes following, **42 A,** 548.
osteoporosis due to, experimental study, **40 B,** *282.
vascular patterns in rabbit limbs after, **42 A,** *617.
Incisions, 42 A, 1106.
India
southern, giant-cell tumours in, **43 A,** *1035.

Patellar tendon, *see* Ligamentum patellae.
Patellectomy
end results of, **40 A,** 972; **44 A,** *1089.
for fractures, **40 B,** 356.
for osteoarthritis, follow-up, **44 A,** *1109.
for Paget's disease, **40 A,** 1423.
for recurrent dislocation in adults, **40 A,** *386.
partial and total
— joint changes after, experimental study, **40 A,** *395, 736.
— results of, **40 B,** *75.

* Indicates full article or appreciable part.

Patellectomy (*continued*):
repair of defect after
— transfer of vastus intermedius, **43 B,** 612.
— V-plasty, **40 A,** *1281; **42 A,** 356.
Patello-femoral joint, *see under* Knee.
Pathological diagnosis, rapid frozen sections in, **44 A,** *1694.
Patients, education of, lantern slide projector for, semi-automatic, **41 A,** 1362.
Pauwels varus osteotomy for osteoarthritis of hip, **44 A,** *855.
Pectoralis major
function and mechanism of rupture of normal muscle, **43 A,** *81.
transplantation
— for abductor paralysis of shoulder, **40 A,** 638; **43 B,** 192.
— for flexor paralysis of elbow, **41 B,** *44, 428.
— — new technique, **41 B,** *36.
— for sterno-mastoid paralysis, **41 A,** 49, 60.
Pectoralis minor tenotomy for intractable brachialgia, **44 A,** 809.
Pectus excavatum, *see* Funnel chest.
Pelvis
anatomy, functional, **42 B,** *432.
and lumbar spine, biomechanical studies, **41 A,** *278.
congenital anomalies in mongolism, **43 A,** 303.
development and growth, experimental study, **41 B,** 223.
excision of, *see* Hindquarter amputation.
fracture-dislocation, iliac skeletal cross traction in, **41 B,** *779.
fractures, **41 A,** 570, 1356; **44 B,** 216.
— avulsion, in athletes, **43 A,** 310.
— diametric, **42 B,** *432.
— involving acetabulum, **43 B,** 605.
— stress, during pregnancy, **43 A,** *538.
— unstable, **42 A,** 1275.
obliquity of, paralytic, fixed, **43 B,** 403; **44 B,** 222.
— intertrochanteric osteotomy for, **43 A,** *1135.
— transplantation of "pelvic deltoid" for, **40 B,** *644.
ossification of, sex differences in, **44 B,** 445.
osteotomy of
— for congenital dislocation and subluxation of hip, **43 B,** *518.
— in ectopic bladder, **41 A,** 1361; **41 B,** *754; **43 A,** 312, 1263; **44 B,** 439.
relaxation of, in pregnancy, **44 A,** 424.
tumours of, malignant
— chordotomy for, **43 A,** 854.
— hindquarter amputation for, **41 A,** 568; **42 A,** *1041; **43 A,** *845.
— supervoltage irradiation for, **40 A,** *870.
see also Acetabulum; Ilium; Pubic symphysis; Pubis; Sacro-iliac joint; Sacrum.
Pen, skin marking, **41 A,** 1353.
Penicillin
resistance in changing face of osteomyelitis, **44 B,** *841.
therapy, topical, of massive wounds, **44 A,** 749.
V and phenethicillin, serum and synovial fluid levels after oral administration, **43 A,** 602, 606.
Pennsylvania Orthopedic Society
annual meetings, 1960, **43 A,** 322; 1961, **43 A,** 1269.
Scientific Research Committee, **43 A,** 594.
— report on traumatic dislocation of hip in children, **42 A,** *705.
— report on treatment of non-union of scaphoid, **44 A,** *169.
Peptic ulcer
associated with hyperparathyroidism due to parathyroid carcinoma, **40 B,** *546.
complicating fat embolism, **44 B,** 762, *790, *794.
Perfusion, regional, in chemotherapy
of chronic osteomyelitis, **42 A,** 539.
of malignant tumours of limbs, **41 A,** *977; **43 A,** 853; **44 A,** 202.
Perilunar dislocations, 43 A, 316.
trans-scaphoid, **41 B,** 426; **44 B,** 961.
— volar, **42 A,** *1051.
Periosteal ossifying fibrosarcoma, *see* Parosteal osteogenic sarcoma.
Peripheral nerves, *see* Nerves.
Peritendinitis
calcarea about metacarpo-phalangeal joints, **43 B,** *250.
crepitans acuta, treatment, heparin, **44 B,** 240.
Peroneal muscular atrophy, *see* Charcot-Marie-Tooth disease.
Peroneal nerve, common, *see* Popliteal nerve, lateral.
Peroneal spastic flat foot, *see* Flat floot, spasmodic.
Peronei tendons
adhesions around, after calcaneal fractures, **44 B,** 961.
dislocation of, with marginal fracture of lateral malleolus, **43 B,** *563.
transfer of, for paralytic flat foot, **42 A,** *1119; **44 A,** 1265.
Peroneus brevis
tendon, cystic degeneration of, **41 B,** *362.
tenodesis
— for insufficiency of lateral ligament of ankle, **44 A,** 810.
— for rupture of calcaneo-fibular ligament, **40 B,** 357.
Peroneus longus
tenotomy for equinus foot in cerebral palsy, **42 A,** 774.
translocation for paralysis of triceps surae, **41 A,** 763.
transfer, anterior, clinical and electromyographic evaluation, **42 A,** *59.
Perspiration
correlation with tactile sensibility, **40 B,** *454.
of amputation stumps, **42 A,** 556.
Perthes' disease, *see* Osteochondritis juvenilis of hip.
Pes calcaneo-cavus, paralytic, **44 B,** 957.
Achilles tenodesis for, **42 A,** 523.
prevention by hamstring transfer, **40 A,** *911.
Pes cavo-varus, vertical osteotomy of medial cuneiform for, **41 A,** 757.
Pes cavus, 41 A, 564.
associated with spina bifida occulta, **44 B,** *828.
etiology, **44 B,** 741.
treatment, operative, **40 B,** 602.
— osteotomy of calcaneum, **41 B,** *80; **43 B,** 610, 860; **44 A,** 809.
— selective denervation of plantaris, **41 A,** 185.
with claw toes and ulceration of metatarsal heads, **41 B,** 428.
see also Claw toes.
Pes planus, *see* Flat foot.
Pes valgus, *see* Flat foot.
Petersen, Marius N. Smith, *see* Smith-Petersen, Marius N.
Petit, Jean Louis, inventor of screw tourniquet, **44 B,** 937.
Pharyngitis, atlanto-axial and atlanto-occipital subluxation due to, **41 A,** *341.
Phelps brace, 44 A, 1462.
Phemister bone grafting techniques
for avascular necrosis of femoral head, **40 A,** *1329.
for non-union of fractures, **41 B,** 875; **42 A,** 187, 1268; **43 A,** 288; **43 B,** 199.
Phenethicillin, *see under* Penicillin.
Phenylalanine, *see* Diphenylalanine.
Phenylbutazone in treatment of ankylosing spondylitis, **42 A,** 358.

* Indicates full article or appreciable part.

Philadelphia, U.S. Naval Hospital, hand symposium at, **44 A**, 790.
Phlebectasis, *see* Veins, varicose.
Phlebography, *see* Venography.
Phlebothrombosis, *see* Venous thrombosis.
Phosphatase
activity in limb bones of growing rabbits, **41 B**, *401.
activity of synovial fluid in rheumatoid conditions, **43 A**, 607.
alkaline
— activity in calcification *in vitro*, **42 B**, *137.
— changes in autogenous bone grafts in dogs treated with cortisone, **41 A**, *1149.
— distribution in epiphysial cartilage, **42 A**, *457.
— in ectopic calcification, **40 B**, 833.
— localisation in histogenesis of cartilage and bone, **41 A**, *939.
— role in osteogenesis, **44 A**, 1238.
— serum levels
— — during antlerogenesis, **44 A**, *482, 1026.
— — in osteopetrosis, **42 B**, 303.
see also Adenosinetriphosphatase.
see also Hypophosphatasia.
Phosphorus, radioactive
in diagnosis of avascular necrosis of femoral head, **41 A**, 1410, 1421; **42 B**, *21; **44 A**, 1257.
in study of bone graft healing, **40 A**, 228.
in study of fracture healing in osteoporotic bone, **41 A**, 372.
Physick, Philip Syng, his case of un-united fracture of humerus cured by seton, **42 A**, 1278.
Physiotherapy
after injury, **40 A**, 238.
see also Diathermy; Electrotherapy; Exercise(s); Rehabilitation; Ultrasound therapy.
Piedmont Orthopaedic Society, meeting, **42 A**, 353.
Pigmented villonodular synovitis
of knee, **40 B**, 824.
treatment, injections of dornovac and nitrogen mustard, **42 A**, 357.
with bony invasion, **42 A**, 534, *1170.
Pigmented villonodular tenosynovitis of hand, **41 B**, 858; **42 A**, 187.
Pisiform bone and piso-triquetral joint, injuries of, radiological aspects, **42 A**, *1317 (*correction*, **43 A**, 322).
Pituitary dwarfism, benign chondroblastoma in adult case of, **44 A**, *571.
Pituitary gigantism
separation of upper humeral epiphysis in, **44 A**, *189.
see also Acromegaly.
Pituitary hormones, *see* A.C.T.H.; Growth hormone; Thyrotrophic hormone.
Plantar digital neuroma, *see* Morton's metatarsalgia.
Plantar keratosis, shortening of metatarsal shaft for, **40 A**, *61.
Plantaris denervation, selective, for claw foot, **41 A**, 185.
Plasmocytoma, *see* Myeloma.
Plasmin
activity in arthritis, **41 B**, *384.
mechanism in experimental spondylitis, **42 A**, *1344.
see also Fibrinolysin.
Plaster-of-Paris
hip spicas, brace attachment to permit knee mobilisation in, **42 A**, *510.
in bone grafting, effect as an "extender", **40 A**, 230.
in filling bone defects, **42 A**, 1270, 1278; **44 A**, 792.
jackets, **41 B**, *260.
— "cast syndrome" following use of, **44 A**, 1260.
Plaster-of-Paris
jackets (*continued*):
— Oswestry pattern, incorporating hydrostatic pressure, **41 B**, *96.
— Risser, **40 A**, *549, *555.
— — localizer, **43 A**, 917.
— — — modified technique, **41 A**, 1348.
— — turnbuckle, **41 A**, *321.
Plastic surgery in orthopaedics, **41 B**, 432.
Plastics
bonding of bones with, **42 B**, 407; **44 A**, 792, 801; (*editorial*), **42 A**, 521.
— ethoxyline resins, **40 B**, *804; **42 A**, 878.
— polyurethane polymer, **41 A**, 373, 1358, 1542; **42 A**, 353, 524, 893, 901, 1275; **43 A**, 147; **44 A**, 205, *1605, *1621; (*symposia*), **42 A**, 718, 725, 877.
bonding of skin edges with, **44 A**, 792, 801.
for hand tendon prostheses, **43 A**, 152.
injection-corrosion studies with
— of circulation of hand, **41 A**, *673.
— of vascular response to fracture, **41 A**, *1143.
macrophage cellular response to, **42 A**, 1276.
see also Acrylics; Ivalon; Nylon; Polyethylene; Polytetrafluorethylene.
for prostheses see also under parts replaced.
Plating
anterior-angled plates for high femoral osteotomies, **40 A**, *1158.
double, in arthrodesis of knee, **43 A**, *795.
of fractures
— case of Arbuthnot Lane reviewed after 45 years, **41 B**, *368.
— Eggers plates
— — in forearm fractures, **43 A**, *1115.
— — in tibial fractures, **40 B**, 832.
— "hookplate" for fixation of small bone fragments, **42 A**, 1266; **43 A**, 602.
— new type of plate, **42 A**, 542.
— three-side plate assembly, **40 A**, *323.
— two-plate method for non-union, **44 A**, 1018.
see also Nail-plates.
Platt, Sir Harry
baronetcy conferred on, **40 B**, 147.
presented with own portrait by British Orthopaedic Association, **43 B**, 176.
Pleonosteosis, **41 A**, *397.
Plutonium 239, structural changes in bone due to, **41 A**, 771.
Pneumatic drills, traumatic arthritis of elbow in coal miners from use of, **40 A**, 223.
Polarimeter, Redox, **43 A**, *819.
Polarisation, low-frequency pulse rectangular, **40 A**, 218.
Poliomyelitis
abdominal muscle paralysis in, lateral, transplantation of "pelvic deltoid" for, **40 B**, *644.
ankle arthrodesis in, **41 A**, 563; **42 A**, 1314.
connective tissue changes in, biochemical study, **40 A**, 728.
differential diagnosis from osteomyelitis, **42 B**, 535.
elbow flexor paralysis in, tendon transfer for, **41 B**, *44.
— pectoralis major, new technique, **41 B**, *36.
facial paralysis in, **42 A**, 528.
foot in
— arthrodesis of, ankle joint in relation to, **41 B**, *337.
— calcaneo-cavus, prevention by hamstring transfer, **40 A**, *911.
— calcaneus, treatment, operative, **42 B**, 861.
— — translocation of peroneus longus tendon, **41 A**, 763.
— cavo-varus, vertical osteotomy of medial cuneiform for, **41 A**, 757.

* Indicates full article or appreciable part.

Poliomyelitis
foot in (*continued*):
— equinus, tendon transfer for
— — long toe extensors, **41 A,** *1077.
— — peronei, clinical and electromyographic evaluation, **42 A,** *59.
— — tibialis posterior, **42 B,** 410.
— flat, treatment
— — arthrodesis, subtalar, extra-articular, **43 B,** 853.
— — tendon transfer to talus, **41 B,** 856; **42 A,** *1119.
hand in
— surgery of, **44 A,** 1708.
— tendon transfer in and about, **43 A,** 614.
hip in
— abductor paralysis, transfer of ilio-psoas for, **41 A,** 181; **41 B,** *289.
— arthrodesis of, **40 A,** 728; **44 A,** 1264.
— dislocation of, **40 B,** 827; **44 B,** *573.
— — capsular arthroplasty for, **41 A,** *429.
— — shelf operation for, **42 A,** *1223.
— — varus osteotomy for, **40 B,** 360.
— lateral rotation deformity, transfer of hamstrings to femur for, **41 B,** *70.
historical descriptions of, **44 B,** *735.
in infants under six months, incidence and prevention, **41 B,** 885.
knee deformities in, osteotomy for, recurrence after, **42 A,** 354; **42 B,** 653.
knee extensor paralysis in, tendon transfer for
— biceps femoris to patella, **40 A,** 978.
— electromyographic evaluation, **42 A,** *919.
— hamstrings to patella, **40 B,** 350; **44 A,** 1018.
leg length discrepancy in, **41 B,** *56; **43 B,** *121.
— treatment
— — epiphysial stapling, **41 B,** 215.
— — growth stimulation by insertion of bone or ivory pegs, **42 B,** *489.
— — surgical lengthening
— — — follow-up, **40 A,** *311.
— — — of femur, new method, **40 B,** 159.
— — — of tibia, **41 B,** 223.
lower limb paralysis in
— appliances for, **41 B,** 885.
— fascial transplants for, **41 A,** 562.
— rehabilitation of paraplegics, **43 B,** 854.
— role of tensor fasciae latae and ilio-tibial tract in production of contractures, **40 A,** 817.
— tendon transfer for, influence of phasic activity of muscles on results, **41 A,** *189.
muscle recovery after, **43 B,** 853.
neck paralysis in
— arthrodesis for, **41 A,** 3, *37.
— braces for, **41 A,** 47.
— transfer of pectoralis major for, **41 A,** 49, 60.
pelvic obliquity in, fixed, **43 B,** 403; **44 B,** 222.
— intertrochanteric osteotomy for, **43 A,** *1135.
prenatal infection with, **41 B,** 884.
respiratory paralysis in, **41 B,** 886; **43 B,** 853, 854, 857.
scoliosis in
— arthrodesis of spine for, **40 A,** *529, *555.
— incidence, **43 B,** 853.
— prognosis and associated muscle paralysis, **42 A,** 883.
shoulder in
— arthrodesis of, **42 A,** 549; **44 A,** *65.
— deltoid paralysis, transfer of pectoralis major for, **43 B,** 192.
— scapular instability, interscapular fascial transplants for, **41 A,** 1535.
social aspects in very young children, **41 B,** 884.
thumb paralysis in
— intermetacarpal bone block for, **44 A,** 1708.
— tendon transfer for, **42 A,** *1015.
Poliomyelitis (*continued*):
treatment
— at Rancho los Amigos, **42 B,** 850.
— contributions of Charles Edwin Irwin, **44 A,** 1251.
— in acute stage, **40 B,** 353.
— of residual paralysis by polarisation, **40 A,** 218.
— orthopaedic, in very young children, **41 B,** 884.
— tendon transfer, **40 B,** 348.
trophic disturbances in, **41 B,** 885.
trunk paralysis in, arthrodesis of spine for, **43 A,** *474.
upper limb paralysis in, reconstructive surgery for, **40 A,** *633.
urinary calculi in, **41 B,** 885.
vaccination (*symposium*), **41 B,** 883.
vascular disorders in, **43 A,** 302; **43 B,** 203.
— chronology of, **40 A,** *245.
Note: In references to surgery of paralytic disorders the causative condition is not always specified. Alternative headings should therefore be consulted also.

infection of, **40 A,** 977.
— in hip surgery, **41 A,** 365; **44 A,** 1266.
— prophylaxis
— — antibiotics, post-operative, **42 A,** 538; **44 A,** *1548.
— — neomycin solution irrigation, **44 A,** 199.
suction drainage of, **43 A,** 913, *939.
Sweat glands, *see* Perspiration.
Syme's amputation
for crushed foot, **40 B,** 347.
for leg length discrepancy associated with congenital absence of fibula, **42 A,** *1.
history of, **43 B,** 611.
Sympathectomy, lumbar
for arthritic pain, **42 A,** 887.
for vascular disease, **40 A,** *983; **42 B,** 661.
Sympathetic nerve block, 41 A, 366.
for shoulder-arm syndrome, **41 A,** 370.
Symphysis pubis, *see* Pubic symphysis.
Syndactyly, 43 A, 151.
associated with osteopetrosis, **40 B,** *208.
reconstruction in, **40 A,** 951; **42 A,** 910.
see also Acrocephalosyndactyly.
Synostosis
radio-ulnar
— surgical creation of, for defects in forearm bones, **44 A,** 193; **44 B,** 743.
— traumatic
— — complicating forearm fractures, **43 A,** 1104, 1117.
— — treatment, new method, **42 A,** 723.
tarsal
— calcaneo-navicular, **40 B,** 359; **41 A,** 1540.
— cubo-navicular, **41 B,** *149.
— incidence in spasmodic flat foot, **43 B,** *734.
— naviculo-cuneiform, **41 B,** *150.
— talo-calcaneo-navicular, with ball and socket ankle joint, **40 B,** *240.
— talo-navicular, **43 A,** *1237.
Synovectomy
for chronic hydrarthrosis, **40 A,** 225.
for tuberculous and rheumatoid arthritis, **41 B,** 857.
of hip, experimental study, **42 A,** 539.
of knee, **44 B,** 443.
— for rheumatoid arthritis, **43 B,** 863.
— for tuberculosis, **44 B,** *34, 442.
Synovial cysts
of calf in rheumatoid arthritis of knee, **41 A,** 730; **43 B,** *87.
of fingers, **42 B,** 399.
of hip
— in rheumatoid arthritis, **41 A,** *721.
— traumatic, **41 A,** *175.
popliteal, **43 B,** 862.
— conditions simulating, **44 A,** 1487.
see also Ganglia.
Synovial fluid
analysis, practical importance of, **41 A,** *167; **44 A,** 1489.
in arthritis, biochemical studies, **42 A,** 552.
in osteoarthritis, effect on sulphate metabolism in cartilage slices, **44 A,** *464.
lubricating mechanism of, **44 B,** *662.
phosphatase levels in rheumatoid conditions, **43 A,** 607.
properties of, **42 A,** 552.
sulphate values in various types of arthritis, **40 A,** *457.
viscosity of, effect of reduction of, **42 A,** 551.
viscosity and pH of, **41 B,** *388.

* Indicates full article or appreciable part.

Synovial haemangioma, **41 A**, *264.
of knee, **42 B**, 159, 857.
Synovial membrane
metaplasia of, **43 B**, 190.
tissue culture of, **42 A**, 551.
— mucopolysaccharide production during, **43 A**, 606.
Synovial osteochondromatosis, **44 A**, *77.
of hip, **44 A**, *87.
pathogenesis, **43 A**, 594.
Synovioma
benign giant-cell, *see* Synovitis, pigmented villonodular.
malignant, **42 B**, 650; **44 B**, 443.
— congenital, of bone, **42 B**, *742.
— of biceps brachii tendon, **41 B**, 222.
Synovitis
pigmented villonodular
— of knee, **40 B**, 824.
— treatment, injections of dornovac and nitrogen mustard, **42 A**, 357.
— with bony invasion, **42 A**, 534, *1170.
transient, of hip, **42 A**, 721.
see also Tenosynovitis.
Syphilis
congenital, epiphysitis in, **41 B**, 222.
see also Charcot's arthropathy.
Syringomyelia
affinity with diastematomyelia and myelomeningocoele, **42 A**, 896, 1265.
differential diagnosis from leprosy, **42 A**, 670.

T

Tabes dorsalis, *see* Charcot's arthropathy.
Talar tilt angle, measurement of, **42 A**, *311 (*corrections*, 727), *1184.
Talipes, *see under* Foot.
Talo-calcanean joint
arthrodesis of, **43 A**, 461.
— extra-articular, **40 B**, 828; **44 A**, 200, 1265.
— — for flat foot, **40 B**, 347.
— — — in cerebral palsy, **41 A**, 366; **44 A**, 1705.
— — — paralytic, **43 B**, 398, 853.
— — using freeze-dried homografts, **44 A**, 583.
— for fracture-dislocation of talus, **41 A**, 181.
— for fractures of calcaneum, **41 B**, 632, 881; **42 B**, *336; **44 B**, 444.
dislocation of, **42 A**, 1270.
instability of, due to rupture of calcaneo-fibular ligament, transfer of peroneus brevis to calcaneum for, **40 B**, 357.
radiological approach to, **43 B**, *566.
Talo-calcaneo-navicular synostosis, congenital, associated with ball and socket ankle joint, **40 B**, *240.
Talo-navicular synostosis, bilateral, with spastic flat feet, **43 A**, *1237.
Talus
blood supply of, **40 A**, 715, *1115.
development of, post-natal, radiological study using posterior tangential view, **43 A**, *961.
excision of, **40 B**, 359.
— for flail foot, **44 A**, 797.
flat, in recurrent club foot, **44 A**, 1018.
fracture-dislocation of, **41 A**, 181; **44 B**, 228.
— treatment by fusion of calcaneum to tibia, **43 A**, 461.
fractures of, **41 B**, 877.
— of posterior facet of, displaced, isolated, **43 A**, *275.
— transchondral, **41 A**, *988 (*correction*, 1363).
injuries of, **44 A**, 1260.
tendon transplantation into, for paralytic valgus foot, **41 B**, 856; **42 A**, *1119.
Talus (*continued*):
tuberculosis of, **40 B**, 345.
tumours of, benign osteoblastoma, **40 A**, *469.
vertical, congenital, **40 B**, *33; **42 A**, 885, 1265, 1276; **44 A**, 586; **44 B**, 229.
Talus accessorius, *see* Os subtibiale.
Tarsal tunnel syndrome, **44 A**, *180.
Tarso-epiphysial aclasis, *see* Dysplasia epiphysialis hemimelica.
Tarso-metatarsal joints, dislocation of, **44 A**, 1706.
Tarsus
agenesis of, with carpal agenesis, **40 A**, *917.
arthrodesis of, **42 B**, 402.
— in poliomyelitis, ankle joint in relation to, **41 B**, *337.
— Lambrinudi's, **40 A**, 221; **41 B**, *738.
— — for drop foot due to sciatic nerve injury, **42 B**, 221.
— — modified, **42 B**, *333.
— pantalar
— — by compression, **42 A**, 1277.
— — one-stage, **43 B**, 610.
— triple
— — by inlaid iliac grafts, for paralysis in children, **42 A**, 549.
— — for comminuted fractures of calcaneum, **41 A**, *1423.
— — for equinus deformity in cerebral palsy, **40 A**, 1368; **42 A**, 775.
— — with posterior bone block, for drop foot, **40 A**, 730.
— — with transfer of tibialis posterior, for paralysis of lateral popliteal nerve, **43 A**, *60.
— without excision of joint spaces, **43 B**, 610.
movements in mid-tarsal and subtalar joints, **44 B**, 741.
synostosis
— associated with ball and socket ankle joint, **40 B**, *240.
— calcaneo-navicular, **40 B**, 359.
— — treatment, **41 A**, 1540.
— cubo-navicular, **41 B**, *149.
— incidence in peroneal spastic flat foot, **43 B**, *734.
— naviculo-cuneiform, **41 B**, *150.
— talo-navicular, bilateral, with spastic flat feet, **43 A**, *1237.

— — unopposable, pollicisation of, **40 A**, 954.
disability, evaluation of, **44 A**, 199.
extension of distal phalanx of, mechanism of, **42 A**, 907.
injuries, open, treatment, primary, **41 B**, 874.
metacarpo-phalangeal joint of
— dislocation: "game-keeper's thumb", **43 A**, 608.
— injuries, **44 B**, 240, 241.
— ruptured ulnar collateral ligament, displacement of, **44 B**, *869.
— subluxation, radial, with ulnar displacement of head of first metacarpal bone, **43 A**, *541.
mobilisation, excision of trapezium in, **41 A**, *609.
movement, **41 B**, 628.
muscles
— flexor pollicis longus, morphology and clinical significance, **42 A**, *467.
— intrinsic, anatomy, functional, **44 A**, *1073.
paralysis, reconstructive surgery of, **40 A**, 947; **42 A**, 913, 914, *1015; **43 A**, 615; **44 B**, 247.
— intermetacarpal bone block, **44 A**, 1708.
— transfer of abductor digiti minimi, **44 A**, 1033.
— transfer of sublimis, **40 B**, 362; **41 B**, 882; **43 B**, 188.
— transfer of wrist extensors and brachio-radialis, **44 A**, *513.
reconstruction, **40 A**, 947, 951; **40 B**, 601, 830; **41 A**, 779, 1353; **41 B**, 217, 433; **42 B**, *444; **43 A**, 617.
— pollicisation, **40 A**, 955.
— — of abnormal first digit, **40 A**, 954.
— — of index, **44 A**, 587.
— — — for congenital absence, **42 A**, *658.
— using tissues from amputated portion, **42 A**, *375.
rheumatoid, surgery of, **44 A**, *1376.
skin replacement in, **44 A**, *1365.
trigger
— in children, **43 A**, 151.
— treatment, operative, subcutaneous method, **40 A**, *793.
web contracture, post-traumatic, **43 A**, 593.
Thymidine, tritiated
in study of bone (*symposium*), **44 A**, 1023.
Thymidine, tritiated (*continued*):
in study of endochondral ossification, **42 B**, *824, 857.
— *in vitro*, **43 B**, 180.
in study of fracture healing, **43 A**, *352; **44 A**, *1557.
in study of growth and repair of immature articular cartilage, **44 A**, *682, *688.
Thyroid gland, *see also* Hyperthyroidism.
Thyroiditis, Hashimoto's, **42 B**, 649.
Thyrotrophic hormone, effect on tendon healing, **44 B**, 241.
Thyroxine and analogues
suppressive effect on abnormalities of fracture healing due to aminonitriles, **40 A**, *1093.
suppressive effect on deformities due to amino-nitriles, **40 B**, 159.
treatment of Perthes' disease with l-triiodo-thyronine, **43 A**, *261.
Tibia
blood supply of
— in growing rabbit, **41 B**, *185.
— in man, **42 A**, *625, 899.
congenital absence of, **44 B**, 961.
— construction of a knee joint in, **44 A**, 1264.
congenital bowing of
— autopsy findings, **44 A**, *737.
— posterior, with talipes calcaneus, **41 A**, *476.
congenital deformity of medial condyle of, in gonadal dysgenesis, **42 A**, *600.
congenital pseudarthrosis of, **40 A**, *1245; **41 B**, 872; **42 A**, 1270; **42 B**, 404.
— dual bone graft for, **42 A**, 723.
— treatment by fragmentation, realignment and medullary nailing, **41 A**, *1371.
defects of shaft of, fibular implantation for, **41 B**, 619; **43 A**, 298; **43 B**, 201.
epiphysis, lower
— extra centre of ossification for medial malleolus, **43 B**, *107.
— osteochondritis of, **42 A**, *1261; **43 B**, 613.
epiphysis, upper
— osteochondritis of, *see* Tibia vara.
— premature fusion of front of, causing genu recurvatum, **40 B**, 345.
fibrous dysplasia of, fibular grafting for, **41 B**, 221.
fractures
— comminuted, bone grafting for, **40 B**, 358.
— compound, **41 B**, 427; **42 B**, 407.
— — primary internal fixation in, **41 B**, *342.
— disabilities after shaft fractures, **40 B**, *190.
— in adults, **44 A**, 799.
— mechanics of, **43 B**, *162.
— non-union and delayed union of, **44 A**, 1268.
— — treatment
— — — arthrodesis of superior and inferior tibio-fibular joints, **44 B**, 963.
— — — bone grafting, **41 B**, 208.
— — — — inter-tibio-fibular, **43 A**, 289; **43 B**, 198.
— — — — intramedullary, **40 B**, 350.
— — — — Phemister's method, **42 A**, 187, 1268.
— — — — subcortical iliac, **43 B**, *672.
— — — compression in, **40 B**, 158; **43 B**, 863.
— — — cross-leg graft, composite, multi-stage, **40 B**, 597.
— — — fibular by-pass operation, **43 B**, 404.
— — — fibular implantation, **43 A**, 293.
— of condyles of, **40 B**, 356; **41 A**, 368; **42 A**, 1278; **43 B**, 612.
— — comminuted, internal fixation of, **40 A**, 970.
— — depressed, rigid internal fixation and early mobilisation in, **42 A**, *783.
— — lateral, rupture of medial ligament in, diagnosis by abduction stress testing, **42 A**, *13.

* Indicates full article or appreciable part.

Tibia
fractures
— of condyles of (*continued*):
— — rupture of ligaments in, **43 B,** 192.
— — treatment
— — — closed reduction and traction, **42 A,** 534.
— — — skin traction in, **44 A,** 1259.
— of intercondylar eminence, **41 A,** *209.
— of "lateral malleolus" of, **41 B,** 223.
— of lower end of, difficult, **41 B,** 633.

— effect on bone and joint tuberculosis, **42 A,** 553.
— in etiology of congenital deformities, experimental study, **43 B,** 406.
intoxication, effect on osteogenic sarcoma, **40 A,** 229.
metabolism in osteogenesis imperfecta, **42 A,** 717.
Vitamin C therapy of alkaptonuria, **41 A,** 1177.
Vitamin D
deficiency, effect on osteogenic sarcoma, **40 A,** 229.
in calcium homeostasis, **43 B,** 607.
in treatment of sarcoidosis of hands, **40 B,** 259.
osteosclerosis due to intermittent administration of large doses in rat, **42 B,** *606.
physiology, **41 A,** 971.
Volkmann's contracture, *see* Ischaemic contracture.
Von Meyenburg's disease, *see* Chondromalacia, systemic.
Von Recklinghausen's disease of bone, *see* Hyperparathyroidism.
Von Recklinghausen's disease of nerve, *see* Neurofibromatosis.

W

Waldenström's macroglobulinaemia, compression fractures of spine in, **42 A,** 132.
Walking, *see* Locomotion.
Walter Reed Army Hospital, Chief of Orthopaedic Service, appointment of John D. Blair, **40 A,** 1444.
War surgery, *see* Military surgery.
Warts, plantar, differential diagnosis from plantar keratosis, **40 A,** 61.
Washington Orthopaedic Club, presentation from British Orthopaedic Association, **40 B,** 598.
Watson-Jones, Sir Reginald
arthrodesis of ankle, **42 A,** 1309.
Lectures, Royal College of Surgeons of England, 1959, **42 B,** 153; 1960, **43 B,** *634.
presentation to, on 10th anniversary of foundation of British volume of the *Journal*, **40 B,** 342.
tenodesis for insufficiency of lateral ligament of ankle, **44 A,** 810.
Webb-Johnson, Baron Alfred Edward (*obituary*), **40 B,** 594.
Webbing, congenital
of knees and elbows, **41 B,** 872.
of knees in siblings, **41 B,** *355.
West Indies, orthopaedics in, **41 B,** 876.
Western Orthopedic Association
annual meetings, 1957, **40 A,** 969; 1958, **41 A,** 553; 1959, **42 A,** 522; 1960, **43 A,** 309; 1961, **44 A,** 1013.
the *Journal* made official organ of, **42 A,** 730.
Western Reserve University, establishment of endowed chair in orthopaedic surgery at, **43 A,** 468.
Wheel chair as aid in treatment of congenital dislocation of hip, **43 A,** *1243.
Whiplash injuries of cervical spine, **41 A,** 374; **44 A,** 798.
mechanism of, **40 A,** 234; **41 A,** 556.
medico-legal aspects, **41 A,** 367.
radiography of, **40 A,** 234.
trapezius spasm after, **43 A,** 595.
unacceptability of term "whiplash" (*editorial*), **41 A,** 16.
White, J. Warren (*obituary*), **42 A,** 359.
Whitman, Royal, 41 A, 549.
reconstruction of hip, for pain due to prosthesis, **41 A,** 181.
Wilkinson, J. A., awarded Robert Jones Medal and Prize, **43 B,** 396.
Willard, DeForest Porter (*obituary*), **40 A,** 492.
Willis C. Campbell Club, formation of James Spencer Speed Scholarship Foundation by, **43 A,** 158.
Willis, William H. Kirkaldy, *see* Kirkaldy-Willis, William H.
Wilson, John Black Ferguson (*obituary*), **41 B,** 853.
Wire
flexible steel
— in fixation of bone fragments, **43 A,** 599.
— instruments for use with, **40 A,** *365.
Kirschner
— and cast as means of applying traction in fractures of lower end of radius, **44 A,** *337, 804.
— fixation
— — in hand surgery, **44 B,** 441.
— — intramedullary
— — — of fractures of forearm, **41 B,** 882.
— — — of fractures of hand, **40 A,** 232.
— — of Colles's fracture, **43 A,** 600.
— inserter for, **40 A,** *485.
Wittek, Arnold (*obituary*), **40 A,** 490.
Wounds
healing of, **40 A,** 948.
— impairment by cortisone, effect of leucine, **42 A,** 544.
Wounds (*continued*):
infection of
— enzymatic débridement for, **42 A,** 880.
— prophylaxis and treatment by circulation and suction, **44 A,** 423.
orthopaedic, suction drainage of, **43 A,** *939.
skin grafting for, open, **40 A,** *79.
surgical, infection of, **40 A,** 977.
— in hip surgery, **41 A,** 365; **44 A,** 1266.
— prophylaxis
— — antibiotics, post-operative, **42 A,** 538; **44 A,** *1548.
— — neomycin solution irrigation, **44 A,** 199.
— — surgical masks in, **42 A,** 903; **44 A,** 582.
see also Injuries.
Wringer injuries, 43 A, 618.
experimental study, **43 A,** *1179.
oedema in, effect of chymotrypsin on, **44 A,** *41.
Wrist
agenesis of, with tarsal agenesis, **40 A,** *917.
arthrodesis, **43 B,** 863.
— for flexion deformity in cerebral palsy, **42 A,** 952.
— in reconstructive surgery, **42 B,** *60.
— localised, **43 B,** 404.
— single thrust iliac graft in, **44 A,** 1017.
bones, accessory: os styloideum, **43 A,** *392.
dislocations, **42 B,** 400.
— of scaphoid, recurrent, **44 B,** 963.
— perilunar, **43 A,** 316.
— — trans-scaphoid, **41 B,** 426; **44 B,** 961.
— — — volar, **42 A,** *1051.
fracture-dislocation, Barton's, **41 A,** 762.
fractures
— compound, complicated, **40 B,** 358.
— ulnar nerve paralysis in, **43 A,** *1197.
ganglia
— compressing median nerve, **40 B,** 835.
— compressing ulnar nerve, **43 A,** 153.
— simulated by anomalous extensor indicis muscle, **41 B,** *763.
injuries
— chondroma following, **41 B,** 632.
— hyperextension, **40 B,** 345.
— involving fracture of capitate, **44 A,** *1537.
— of nerves and tendons at, rehabilitation after, **44 B,** 241.
— shotgun, **40 A,** 967.
— with soft-tissue loss, forearm shortening for, **40 A,** 958.
instability, intercarpal, **43 B,** 403.
mechanics of, **41 B,** 210.
movement of, **43 A,** 150.
nerve compression at
— by accessory palmaris muscle, **40 A,** *929.
— by ganglia, **40 B,** 835; **43 A,** 153.
— *see also* Carpal tunnel syndrome.
nerve injuries at, **42 B,** 647; **43 A,** 612, 613; **43 B,** *465; **44 B,** 241.
subluxation of intercarpal joints, **40 B,** 348.
tendon transfer at, for nerve injuries, **42 A,** 726.
tendons
— extensor
— — radialis brevis lengthening for tennis elbow, **43 B,** *100.
— — radialis longus transfer for thumb-clutch hand, **44 A,** 200.
— — transfer for intrinsic paralysis, **43 B,** *444.
— — transfer to restore opposition, **44 A,** *513.
— flexor, transfer in cerebral palsy, **42 A,** 952; **43 A,** 304; **44 A,** *1343 (*corrections*, **45 A,** 218).
tenosynovitis
— rheumatoid, **40 A,** *1230.
— *see also* De Quervain's disease.

* Indicates full article or appreciable part.

Wrist (*continued*):
see also Radio-ulnar joint, inferior; Carpo-metacarpal joints; *and names of carpal bones.*
Wryneck, *see* Torticollis.

X

Xanthoma, *see* Non-osteogenic fibroma of bone; Villonodular synovitis; Villonodular tenosynovitis.
Xanthomatosis, *see* Hand-Schüller-Christian disease.
Xeroradiography, 41 A, *271.
X-ray diffraction study of bone matrix, **44 B,** 506.
X-rays, *see also* Radiation; Radioactive isotopes; Radiography.

Y

Yaws, tumoural gummatous, **42 B,** *785.
Yugoslav Association of Orthopaedic and Traumatological Surgeons, foundation of, **43 A,** 321; **43 B,** 864.

Z

Zahradníček, Jan (*obituaries*), **41 A,** 376; **41 B,** 205.
Zinc peroxide
in treatment of tuberculous ulcers and fistulae, **40 A,** 220.
in treatment of undermining burrowing ulcer complicating post-traumatic prepatellar bursitis, **43 A,** *1043.

* Indicates full article or appreciable part.
